# Today Is The Day

today is the day i make a change. today is the day i do what i gotta do. today is the day i change my ways. today is the day i learn how to respect others. today is the day i put the past behind me. today is the day i forgive and forget. today is the day i stop being upset. today is the day i smile and not frown. today is the day i start caring bout myself. today is the day i take responsibility. today is the day i live life to its fullest. today is the day i realize life is too short. today is the day i see things through. today is the day i will make a change.
