# Loosing You

You are my love  
I can't stand  
You're the one and only man  
That I feel this way  
We're not gonna last  
But for now I want you to stay  
You're my everything  
You're my all  
Around you I always seem to trip and fall  
I can't live one day with out you  
I'm completely in love  
And you should know it's true  
You're a player  
Cause you're with her  
People say we're not meant to be  
Yet it feels so right  
I love it when we cuddle  
Nice and tight  
With you I feel amazing  
But I know...  
I'm only chasing  
You can't seem to have just one  
To you....  
I'm just some fun  
It's just not right  
Cause we always fight  
You hurt me so much  
You don't even know  
I'm so comfortable around you  
Not like anyone else  
I wish it could just be  
You and myself  
We've been together for so long  
Loosing you is just so wrong  
So I pray today  
Just be with me and stay

# My Love

You are my love  
You are my drug  
I just cant' get enough  
You're making me weak  
But I gotta stay tough

You are my sunshine  
You're my shining star  
It seems like you're a million miles away  
So I gotta reach far

You are the ocean  
You are the tide  
With waves of love  
I'm surfin' the ride

You are my secret  
You are my lie  
So you better keep it  
'Til the day I die

You are my question  
You are my answer  
A mystery  
But the problem's solved

You are my love  
And that's all

# My Love For You

My love for you is undeniable  
Your love for me is unreliable  
You love her  
She loves you  
I'm just standing here  
Hoping it's not true  
I dream about you everynight  
Think about you everyday  
This just can't be right  
Or so they say  
So I'll stay here 'til you come  
Even if it takes forever  
Just for the chance  
Of us to be together

# Show Your Feelings

You like me  
I know it  
So stop hiding your feelings  
And show it  
I regret what I said  
I can't get it out of my head  
I know I can't take it back  
But I really miss what we had  
Just give me one more chance  
I'll make it right  
If I had to choose  
I'd pick you for life  
So open your eyes and see  
You and I are mean to be

# The Way You Make Me Feel

Being in your arms is a feeling I want to never lose. Every minute I'm not with you, it's considered abuse. Everytime that I see your face, I know that I am always safe. Everytime that you are near, your voice is the only thing I want to hear. When it's just you and me, you're the only one I want to see. If I had to choose, you know it would be you. So don't have any doubts, you should know you're what I'm all about. =)

# Time To Move On

The moon begins to rise  
Over these dark,  
pitch black skies  
She glances out her window  
Her heart full of sorrow  
Dreading the day  
It will soon be tomorrow

She soon falls asleep  
In her dreams  
You and her  
Is what she sees  
You take her hand  
And keep her safe from harm  
Soon she wakes up  
To the sound of her alarm

She wakes up to what felt so real  
Now her breaking heart  
Is all she can feel  
You are deeply missed  
In her aching mind  
She thinks about you  
All the time

You and her  
Have been together so long  
But the time has passed  
And it's time to move on

It's just not right  
Having to live this lie  
She fakes her smiles  
And holds her cries  
Wishing she didn't have to say goodbye

# Waking Up With A Broken Heart

She wakes up with a broken heart  
Getting ready for the day to start  
She takes the bus  
And goes to school  
Trying to play it like it's cool  
The second she sees him  
He's with her  
Her eyes start to get red  
Everything turns into a blur  
She survives the rest of the day  
And goes home  
She opens the door  
And she's all alone  
She goes into her parent's room  
Knowing she will be in Heaven soon  
What he said is playing in her brain  
She knows nothing could ever be the same  
She finds the gun  
And puts it to her head  
Pulls the trigger  
And now she's dead

# Wish You Weren'T Here

Wish you weren't here  
Wish I was somewhere safe  
So I don't have to live in fear  
Instead somewhere to keep me in place

Wish I wasn't standing on a tight rope  
Watching every step I take  
Every step full of hope  
Hoping it won't break

Wish I could get out  
Hopefully some day  
Wish I wasn't full of doubt  
But all I can do is pray

# Without You

Life without you is death  
Loving you  
There's no time for rest  
I survive on your soul  
You complete me  
You make me whole  
You're the reason I'm alive  
Without you, I couldn't survive  
Loosing you  
Is loosing it all  
My love for you has grown very tall

# You Are The Reason

You are the reason I always cry  
You are the reason we always fight  
You are the reason I want to die  
You are the reason I hate my life  
I know I can do better  
But I want to be with you forever  
I can't seem to let go  
I'm too weak and I'm not strong  
Why is this so hard?  
All I want is to move on  
You mean so much to me  
You mean my life  
I'll never forget our memories  
The million that we have  
You'll always be at the bottom of my heart  
Always and forever  
Hopefully someday....  
We can be together

# You Meen The World To Me

You meen the world to me  
And everything around it  
Think of what we could be  
I just like the sound of it  
They say I put my crushes first  
Cause baby, you're on my top  
I know we can make this work  
Cause I'm not gonna stop  
Hearing your name makes me smile  
When I'm in your arms  
I wish it didnt' only last a while  
All I want is you  
So come be with me  
And see  
My love for you  
Is true
