# Love

roses are red violets are two  
my heart urns for you and yours does to  
my love fights for you your for me our loves combined together  
will always be together even after death. and that will be true because i love you  
you love me so we are one but my love is enough for both of us.  
so not cry and don't pout because i am here without a dout. here to love you.

# My Kinship

I am everything every color every race  
you cant say anything about me because im you  
just 'In your face! ' you cant stop me and i dont want  
to. I am everything and so are you in some way or form  
we are all connected so say thanks  
because we are in love you and me.  
my kinship is yours so be thankful.  
we could help build life or destroy it to.  
But when we do i want to be with you because  
mine is yours and yours is mine our kinship is one  
and we are in love

# My Love For You

my love for you is like water  
i always love you even when I'm sober  
i love you no matter what  
i love you to my last  
i would die to save you  
you would kill to hurt me  
i would protect you to my end  
you wouldn't see my deathbed  
you hate me and i love you  
but he broke your heart and i was there for you  
but you didnt know that so i was pissed  
so i love you and you hate me so  
thats it im done with you. go ahead and hate me  
because thats all i will ever be to you someone you hate.

# The Hat

the hat i wear protects me from you  
the hat i wear protects me from pain  
the hat i wear drives you insane so i love my hat  
because you are finally in pain.  
you think my hat is lame my hat thinks you are to  
you should be friends but then you'd get hat to.  
you have everything from me and my hat makes you angry  
thats why i have it because you hate it. so my hat  
will be mine forever. and i will be naughty.

# What I Think Of You

My life means im insane  
my life means i am lame  
my life means im not here  
my life means im a deer  
your life means your going crazy  
but to me your just lazy  
i really dont care what you think  
but your words are driving me to the brink  
you think you are popular but to me you lost it  
because to me you were lovely  
and now you've lost it.

# Why Im Always Saying Hi

I always say hi because you never say goodbye  
i always say hi because you could always die.  
i never say goodbye because i dont wanna leave you  
but i will always cry if you dont want me to be there for you  
im not a child so i will say hello but i will never say adios for that may bring  
a very bad all time low. i said this to be near you. but i will say it again.  
i am here to help you not hurt you so tell me and i will come once again.  
i never said goodbye to you so i wont say it today. but i will say i could die today  
so if you could please say HI.
