Forgive Me

My fingers are shaking.
Because of your breaking.
You always made me happy.
Even when im sick.
You Make me happy.
Without you theres a gap.
The best thing, laying in your lap.
Forgive me i pray
Dont remember me say
This words were hard to you.
I know.
Even if you cant forgive,
Never forget
You are just the best.
The best thing ever happened To me.

Loosing You

Sitting here alone, thinking through.
Trying to convince myself that im not losing you.
Why cant you just forget the things Ive said?
i was angry at that time but now i cleared my head.
It was so strong were did it all go wrong?
So tell me why! Im swimming against the tide.
And im praying for a live line because i am losing you.
Im complicadet i know.
Are you giving up this fight?
I cant stand. Wont stand losing you.
We need more time.
And i know i may have made many mistakes.
But losing you is too much for me to take.
What can i do to dont loose you?
Last thing you should know is that i really love you.
