A Melodic Vocalist

In the dark midnight I hear a vibrant nightingale
Singing with exceptional folktale
Tune in the candy coated fantasy musicale
Specific about dream of light by female
That spark in the eyes was
Defining pitch black shade
At the end of the day I was
over persuade
Started the journey in the month of may
suddenly faces a colorful ray

Beauty of dreams hold a connection
Moon and stars develop fascination
Smiling flowers direct the vision
Rushes to achieve divine crucifixion
A voice to wake up for a brand new start
It was a creature of fiery heart!

Sci-Tech

Science is a mystery
Full of chemical history
Science is a treasure
Difficult to measure
Cosmos of creation, Cosmos of resource
Together bond us with the gravitational force

Good health bears a great mind
Great mind is one of it's kind
Fruit and Vegetables are valuable to eat
Robust meal can be a treat
Running around makes you fit
You don't even need a jogging kit
KFC McDonald's Pizza Hut we love to GO
For chocolate chips and candy we never say NO
In those days no doctor for eyes and ears
Yet they remain fit for long years

Technology will advance
Gadgets will change
It's our family and friends
that will always prevail
You can swap ideas and hold conversations
Update with news and show off creations
Sincerely time in it's flight is traveling so fast
Let's not spend it wailing over past

The world has changed In many ways
Yet I remember golden old days
Keyboards replaced pencils
I still admire drawing with stencils
Your identity is your dignity and designation
It give you certain fame and recognition
All advise my dad used to give
His voice I will remember as long as I live

That childhood innocence no where to be found
It was so profound and I lost it
Some of it lost on the way

Some of it was taken away
And rest I just gave away
I know from my heart
Innocence is god's best art
And was my life's best part
I lost it!
