## Mason KT Goldstein(07-13-1997)

When I was young I was given up for adoption at age 0. I was placed in a foster home at age 1 being abused and verbally abused. Dyfs then took me out of that home to put me in a home that was filled with abuse and starvation. I ended up in the hospital at age 3 unable to walk, talk, breathe on my own. When I walked I had to use a walker. I had a breathing tube at all times to help me breathe, I had no meat or muscle on my bones. I was taken in by my foster dad who didn't even know me at the time. Taking me in, feeding me and nursing me back to great health. My foster dad developed cancer, colon cancer 2 times and was at the age where Dyfs would not allow him to take care of me so my family now adopted me breaking my foster dad's heart. I developed depression, anxiety, PTSD, and ADD at a young age being bullied for my height and size and the way I talked. Growing up I have been in multiple treatment centers for depression and suicidal thoughts my life has not been easy but when I write poetry I can say it's a breeze. I've had house fires, I've seen death, I've seen rapes, I've seen pain, I've seen crazy and reckless. I HAVNT seen anyone..I HAVNT witnessed blessed motives through my eyes. A life is supposed to be anyone and blessed. But all I can see is a mess.

## 5 Wishes

so many wishes in so much time  
so many lovers fighting for time  
so many captives looking for more crime  
so many number have just entered their prime  
5 wishes can fix everything  
5 linnits can make a linnit sing  
5 wishes can let you know  
why in the world you would ever want to go  
so many wishes can do so much damage  
so many wishes can give you such an advantage  
so many wishes can throw you away  
so many wishes are being wished...today?  
why are these wishes picking the words  
jus so they can make that wish serve  
a rally with the stars on 11: 11  
but those sad  
happy, gloomy, sappy  
wishes  
would become true when ever its pleasent

# A Cloud Not Takin

1 cloud is gone  
in this light night sky  
2 cloud is gone  
as i wave my hand goodbyebut as i walk away  
with tears down my face  
3 clouds are gone  
by envy and greed  
slowly and softly  
my feet hit the ground  
not wanting to look back  
or to even make a sound  
but now i know what i have done  
and why my life has never begun  
4 cloud is gone as my tear hits the ground  
5 cloud is gone as my face carves a frown  
0 cloud is gone as my whole body tumbals down  
no more clouds left  
becasue i am fully gone.....

# Amazing World

as someone may try to take in all the considerations,  
the beautiful faces sleeping within our nation,  
a wish or not to wish,  
between our daily cravings,  
its like a puzzle puttin you on a muzzle,  
never ending cries descending for the cuddles,  
frustratin sounds lovin to huddle,  
some people might rebutle,  
on another level,  
a power forward motion a notation of hoping,  
... landing in a verticle postition,  
like a human is smoking,  
someday i wish to be on the very top,  
to never ever stop,  
til im cleaned up with a mop,  
power to the metal as push comes to shove,  
this is the power of love,  
rap the rythem to hear my god above...

Mason KT Goldstein

# Amen

I was supposed to be decapitated,  
Stars bein annihilated,  
A habit on the pacifier,  
Lack of personification,  
The onomonipia translation,  
Open minded signification,  
Never not sayin pledge of alligence,  
Vaporized legion upon treason,  
On the soft blooded region

# Angel Phantom

Angel phantom

An angel phantom  
So Richler so lank  
Has each faculty of sense  
She has a mazy motion  
She stops and stares  
At the breast of the mountain  
Propheying of what's going to happen next  
Will people fall?  
Will her next kin come?  
Her countenance is alright rainbow glow  
But eyes so scary so hath  
And non ordinary  
She is clearly mad  
From her killed of dad  
But now  
She's awake from being sad  
And now she's the best  
She's the queen of the nest  
She is never so sagged  
Because she is one of the best  
And she lies between her life  
She gains  
And forgets all the strife  
An angel phantom  
So Richler so lank  
Has all faculty of sense  
And so nice  
And has no pase  
She has a mazy motion  
When ever she flies  
She one of the best  
She will never.....die.

# As We Stand

the morning is the day  
without a long dark  
a period without  
a bad or hateful part  
as you walk outside  
with the glazing hot sun  
staring down on you  
like your the only one  
the doves chirping in your ear  
the blue cardinals awaiting your grand entrance  
your body is the gps  
and you start to move on an everyday pace  
to somewhere new  
the chirping in your ear  
the trees awaiting to hear  
youhds moving so fast  
you feet ready to dash  
the smell of the roses popping out  
the funiest sounds when a kid goes and shouts  
the morning is day  
without a long dark  
a period without  
andy hateful parts

# Back In The Days

Back in the day

Back in the days  
Where the people where strong  
Back in the days  
Where people sang my song  
Back in the days  
When life was so long  
I just don't know what to do

Holdin me tight  
The stars around my waist  
Full of fright when the nights turn into days  
Lookin around  
Looking straight at you  
Falling down  
When the times are at there worst  
Blocking the sound  
When people just burst

Oh the love  
Taking me down as we speak  
Lookin above  
No one there to guide me  
Ill walk alone  
No one by my side  
Listen to this song  
And you might even cry cause  
I will live my life  
On this road tonight  
Don't you ever tell me that I just can't do it right  
I was born with the bad  
All through my life  
All these scares on my back  
With a hatred attack  
We walk this road together  
We never die  
We walk this road forever  
We always fly

We are a family  
We always stick together  
I will never leave your side  
When your as light as a feather  
Yes I love this world  
With all my heart  
I never wana leave  
I just want brand new parts  
So sad so mad  
People be hitting me when I was just so small  
What did I do  
Who the heck cares  
This is my life now  
Shall we walk or shall we stand here and talk  
I don't wanna trust  
I don't wanna belive anyone that comes  
I just wanna have people that care about me  
I never had that before cause

Back in the days  
When these people said goodnight  
Back in the days  
when The stars had to unite  
Back in the days  
when I said I love you  
Back in the days  
where I didn't know what to do  
Back in the days  
when I ran away from you  
Back in the days  
Back in the days

Take my hand  
We shall see  
This world  
And walk this journey  
Who we are how we live it all depends  
On back in the day.....

My times feel so over  
My life feels so sober

Losing the interest  
And yes starting to cry  
I turn my self around saying  
Baby yes and goodbye  
I will live forever  
But forever is so long  
I will hold my ground  
I will stand so tall  
Don't you ever come close  
Don't you ever look me in the eye and tell me you love me  
You have smacked around  
All these sensitive grounds  
Pushing my heart farther and farther away  
Takin my trust tryin to kill today  
Taking my love and yes trying to say  
The long 3 words ive been sayin today

Back in the days  
Where the people where so strong  
Back in the days  
Where people sang my song  
Back in the days  
When life was so long  
I just don't know what to do  
Oh I just don't know what to do

# Beast

Look at me

Look at me what do you see

An idiot

A really big beast

Take my hand

Hold me tight

Don't let me

I beg of you

I will so fight

For you

Am I a hero?

Am I a guy?

What do I do

Oh what do I do

Look at me what do you see

A person that neglects on his thinking

A person that thinks of himself

A person who just doesn't care

A person that has never felt a thing

Look at me what do you see

I see a person who cant see a thing

Mason KT Goldstein

# Beautiful

Beautiful world, takes me back in time  
Beautiful world really makes me smile,  
Because when I look around I see everyone smiling  
Cause when I look around I can see your beautiful face  
But I'm like a star and  
You're like like the world but it's not important about being beautiful girl  
I love you for your heart  
I love you for your smile and  
I love you for you  
You really make me smile  
You make me laugh too and  
When I see your face I stare at you

We look around in this beautiful world I believe in just one cute girl we both  
believe we can fly to the top we are thinking that we can never ever stop I've  
never met a girl like this in my life even though I've barley been alive but I find  
this girl to be so amazing so talented and so crazy but right now I can believe in  
love I can always have someone to hug cause

This Beautiful, takes me back in time  
This Beautiful world really makes me smile  
Because when I look around I see everyone smiling  
Because when I look around I can see you crying

You smile I can see  
You cry I can see  
I come over to you  
All you say to me  
Is goodbye goodbye I have to move away  
Tears start to form  
My eyes start to close  
That's the time I really lost my hope  
Running home as fast as I can  
Getting in trouble for leaving the premises  
I waited 2 years to see her again  
I waited 2 years for her to call back  
I waited 2 years for her to return  
But no she's gone  
I cry because she left

I die because this is happening  
I say to my self maybe she wasn't right  
Maybe we weren't meant to be  
Maybe we both over acted on love

But those 2 years I knew there was no possibility  
No chance  
No opportunity  
No more tranquility  
No more prosperity  
And definitely no similarity  
Cause

Beautiful world, takes me back in time  
Beautiful world, really makes me smile  
Because when I look around everyone is smiling  
But when I look around I can see my self crying

After that time I just couldn't love again  
After that time I just couldn't pray again  
After that time I just couldn't hug again  
What am I turning into am I now a demon  
When she left I left  
I left my fears behind  
I let my eyes go find  
I let my face go shine

But now I'm a grown boy  
I actually have some fears  
I actually have feelings too  
I'm better  
I'm brighter  
I'm smarter  
I'm tighter  
I'm bigger  
I'm lighter  
I believe in love  
I believe in people  
I believe in the world  
And I believe in my self  
Cause

This Beautiful world, takes me back in time  
This Beautiful world really makes me smile  
Because when I look around I see everyone smiling  
Because when I look around I see grins on there face

Love is not a game it's a second life it's a life that will never leave you, you can never say that you cant or you wont love ever again cause your just lying to your self big time after this time happened in my life I felt bad I felt like a stick in the mud I cried my heart died and I didn't know what to do cause I've never had that experience I mean yes have I had girlfriends before this on but this one just made me spark and made me feel alive and the reason is she was just like me crazy, funny I could act my self around her I can really talk around her and I could help her and she would say thank you I wanted to share this song because in middle school there's a lot of love drama going around and I just need to show you that love isn't a game its real but you don't have to have love every second of your life I mean your already surrounded around love by your friends your family your teachers anyone that you know well is going to love you

I guess what I am trying to say is that don't go out with someone just cause he or she looks cool he or she is amazing at sports or if his or her hair is awesome, you go out with them because they have a great personality someone that makes you laugh and someone that makes you smile, someone whose by your side when your hurt or if you don't know what to do someone whose there when no one else is someone who loves you for who you are not your appearance and if the person doesn't like that about you then that's not good at all that's what love is remember that and please don't forget this because I guarantee you, your going to run into a person that says something just like this when we grow up

## Better 5

I am trying to fly so high  
No one will take me down  
I will live my life how  
I want it to sound  
I will take your hand  
I will not back down  
I will stand in my spot  
And I will hold my ground

I need to learn how to fly  
Walking up in this path  
Cause I will reach for the stars  
I will never look back  
I will look to the sky  
And I will hold my ground  
I will take your hand  
I will never let you down  
Its time we walk on this path  
And reach for the stars  
I will never look on this horrible eve of the stars  
We share a component in life one opportunity, love trust  
Variations of obligations until  
They all start to rust  
Im completely ready to reach for the stars  
Im completely ready to walk far and large cause

I am trying to fly so high  
No one will take me down  
I will live my life how  
I want it to sound  
I will take your hand  
I will not back down  
I will stand in my spot  
And I will hold my ground

Once I reach these stars  
I will feel fresher than ever  
I will stand in my spot until we all can say never  
Come with me

Help me  
Let's find our destiny  
In one beautiful star  
That we all can now see  
We look back at each other with a gleam in our eye  
Just wait for the time  
I will feel so alive  
I will refuse to die  
I will always try my best to hold on to my time  
Take my hand and we can fly together  
Walk this road and we will try forever  
Cause

I am trying to fly so high  
No one will take me down  
I will live my life how  
I want it to sound  
I will take your hand  
I will not back down  
I will stand in my spot  
And I will hold my ground

I hold my faith and my hope  
In my hands  
No one really knows  
Where I'm going to land  
They only know how I feel  
They only know how I plan  
My days feel down  
But my life has much sound  
This time I will look up  
When there's no one around  
This world takes place in a big battlefield  
The battle of the demons  
And the angels  
With in trying to yield  
The greatest power of all  
The hearts of steel  
That's why we fly and grab a star  
To make us invulnerable to the rockets in air  
Yet we dodge the thing that burst in air  
The lost souls that they have taken

To demolish and share  
But we so stand tall  
Us braves little soldiers  
The biggest of the baddest  
But yet the smartest and the boldest

I am trying to fly so high  
No one will take me down  
I will live my life how  
I want it to sound  
I will take your hand  
I will not back down  
I will stand in my spot  
And I will hold my ground

I think its time we look back at our selves  
Tell us that were amazing and that we cant fail  
Look into the sky and say these couples  
The world may rotate but my life still occurs  
This is the end of this proud little song  
My fairytale has ended its time to move on  
The past is over the future is among  
forgive and forget the glory road sun

# Carry On

one more thing without a sound  
moving and twitching around  
you scoop your hand on the ground  
and next thing you see is a snake unwound  
a glamouros look in his hey  
and a fierce sharp tail  
it slithers out your hand  
and bellows with a large hale  
the sounds calling  
to all of his kins  
his life still remain but he is also out of my hands  
'sssss'  
is what they say  
with no bad looks and not a good day  
i can see that all of your life  
has been drained into all this strife  
just from touching one little tail  
one little tail that you wish you can bail

Mason KT Goldstein

# Cause Of Love

## CAUSE OF LOVE

A special girl with a special boy  
A lost sole  
Put in hearts of joy  
A new life has just been born  
But soon a new heart  
Will be so torn  
A special girl  
With a special boy  
A transparent heart made of red gold  
So soft so red so nice  
So red so beautiful  
So beating so nice also  
A person whose life has taken a step  
A step a step in the world without any peeps  
Cause of love.

Mason KT Goldstein

# Caves Magical Madrigal

walking in a cave  
defter than before  
a hard rocky breast  
covererd in stoles  
the wind passing through the walls  
singing a song  
so richlier  
making you want to spin  
in the dizzy cold air  
that stole twirling everywhere  
the amazing madrigal  
repeating its name  
an amazing madrigal  
repeating the same

Mason KT Goldstein

# Child Of Mine

Oh child of mine what shall we do?  
Shall we walk to the moon?  
Or be number 2  
Oh child of mine what shall we do?  
Shall we perform?  
The old wind that just blew  
Or shall we just be number 2  
Oh child of mine what shall we do?  
Shall we climb a tree?  
Or put on that shoe  
No lets just be number 2

Mason KT Goldstein

Mason KT Goldstein

# Crazy Me

a crazy hypothesis  
brought to the world  
with everyone calm

# Dont Leave

Leave

Will you leave?

Will you stay?

Will you help?

Will you obey?

Help me please I'm stuck in this spot

Help me please so many things I can't stop

Take my hand

Walk with me

Take my hand and we shall see

What must come next?

What must come there?

Live in my life and we shall live all forever

Don't say the final word

Don't scream at me at all

Just yes

Take my hand

And shoot that big ball

It may be hard to get it in

But not as hard as giving in

Mason KT Goldstein

# Dont Leave My Valley

rose pedals fall when we say goodbye  
sunflowers grow when we say hi  
today shall be the day where we go and decide  
2 people  
2 lives  
...4 roads  
100 tides  
1 life says to another  
the ending will be to overcoming  
not having you there when ever im down  
not holding your hand when there shall be no sound  
not looking in your eyes and saying i will be homebound  
but most important not being there to say  
what wonderful joy we have shared today  
a friend and a friend saying there shall be no end

Mason KT Goldstein

# Dont You Dare

DON'T YOU DARE

Never say I love you  
If you really don't care  
Never talk about feelings  
If they aren't really there  
Never hold my hand  
If your gonna break my heart  
Never say your going to  
If you don't plan to start  
Never look into my eyes  
If all you do is lie  
Never say hi  
If you really mean goodbye  
If you really mean forever  
Then say you will try  
Never say forever  
Cause forever makes me cry.

Mason KT Goldstein

# Everything

Life killing approximations,  
Dead or alive penetration,  
Duty to god persecution,  
Living among all my nations,

Hearts are an infestation,  
Bombs in air by army station,  
Everyday it's a mirror revolution,  
A collaboration of annihilation,

... An enemy friendemy legacy down,  
Torn apart by country's around,  
Grounded to sound rappin up clouds,  
Rested destinee aloud to a crown,

Mason KT Goldstein

## Fine Winds

Standing there with nothing to do,  
So blasting cold,  
Cause the winds hitting you,  
Your hands flying back,  
Your hair so out of wack,  
Your life being drained  
Your heart being so deranged  
Standing there with nothing to do  
You're so cold  
Because the fine winds are hitting you

Mason KT Goldstein

# Greatful

I'm grateful for the world that took me in behind adoption,  
All the altiquent thoughts that broke me down are now forgotten,  
My friends, my family, lovin like a prodigy,  
I'm no legend but thanks for bein there for me,  
Every testimony,  
Down between the lesser and please,  
I'm not scared, I'm so done,  
I love the life that god put me among,  
I believe not deceive,  
Helpin people who've been teased,  
... I thank you for the love you've shared,  
And I've takin it in from the air,  
Love is my name hope is my future,  
Wishin up a storm for the minuver

Mason KT Goldstein

# Hopes

a lonely day  
out of a lonely night  
a hurtful wish  
filled with all despite  
a long throw  
of a football across  
is a like a plan going well  
if you may make the catch  
a sunny cloud above your face but its all fair and well  
when you know whats a descase

Mason KT Goldstein

# Hug Me

hope and love in the distance  
wishes above to a bucket list  
to show how you may progress  
your heart may break but its never left  
hope and love in the distance  
every way to the world missions  
amazing hate  
and amazing love  
but nothing is better than an awesome hug  
so take your hand  
and pull it around  
a body of warmth  
and never let go in the world of storms

Mason KT Goldstein

# I Herat 2 Peope

I heart 2 people

2 people in love  
What can you say  
Goodbye?  
Hello?  
Everyday? You're jealous all well  
Just deal with the pain  
Don't turn back  
And say a good game  
Don't be like that  
Do go out of whack  
Tell me you love me  
Say it with pride  
Tell me you want but please  
Don't say goodbye.

Mason KT Goldstein

# Laying Around

shall i lay around  
without a sound  
shall i lay around  
without a golden crown  
laying around looking in a mazy motion  
standing there wishing i had potion  
potion to cure, to cure the sick  
potion to fire up the dark burnt wicks  
shall i lay around without a sound  
not daring to gain a pound  
but this time is the best  
the year of the day  
wherei have been to rest

Mason KT Goldstein

# Long Road

## LONG ROAD

There's a long road  
I must complete  
Take a long stride  
And catch me  
Ill be far ahead  
On this long road  
Narrow, black, silver and gold  
Because when you step on this path  
You will never look back  
Its too long of a road.

Mason KT Goldstein

## Lovein Praise

for all what has been said and done,  
ive highlighted words one by one,  
all my actions have weighed a ton,  
but not even me can break this pun,  
a life of hell, a demon within,  
no more not now im the angel kin,  
goodnight good day,  
a wish anyway,  
1 more sound a touch underneath,  
this battlefield of snow and belief,  
a saint to remember glory days within a time,  
of peace and praise....

Mason KT Goldstein

# Manifold

## MANIFOLD

Manifold we shall stay in our spot  
Manifold we run and don't stop  
Manifold we stay and don't play  
Manifold we yell and don't tell  
It's a life with many reasons  
So many we cant bear  
A world we may live in  
That we have to always care  
I life filled with love  
But hate is also the crime  
We turn in the bosses  
But never waste the time.

Mason KT Goldstein

# Many Tears

&#8206; 1 tear in the chocholet rain  
2 tear in the fountian of shame  
3 tear in the hope of lives  
4 tears in the heaven of strife  
5 tars into saying goodbye  
6 tears into moving daylight  
7 tears of friends in my heart  
far an hard as you may look at the fountian  
so fuled with rain drops as your counting  
the ripples in the water making many waves  
in the silent water, That no one can ever see  
life may never be as it expected  
but at least your here with all sighns perfected  
1 tear gone in the waves  
that never stop pushing away and away  
2 tears gone in the sky  
back to the empty place where i never tried  
3 tears in the fountian of shame  
no more tears left now i need fame

Mason KT Goldstein

# Mine Forever

into gold that will be mine

# Morning And Night

I turn my head to the east  
Look around no ones by my side  
I put my head to the west  
Everyone starts to cry  
I don't know what I did  
Why did I disserve this?  
Why is my life goin down hill once again?  
I turn my head to the south  
Everyone starts to die  
I put my head to the north  
Everyone gets a new life  
But did I do this  
Or did I just let it go

But we are heroes  
We make things better  
We go ahead  
We write all these beautiful letters  
We try to prevent all these deaths  
We try to prevent all these tears  
We try to prevent all these feelings

# My Road

I walk this road all alone  
It's the path I've chosen to go  
No one will keep me from moving  
I'm like the wind I never stop losing  
I look to the sky and all I can say  
Is I did it again no help no gain  
Yes push me aside  
Yell out my name  
Hate me if you dare  
It wont gain you fame  
I wish to the stars  
That I would let it in  
But it's not just me  
I'm saving my own skin  
But I have realized now I let you all down  
Im saying good day  
Instead of goodbye  
I hurt in stead of healing  
I put my face in that mirror  
And all I can see is an empty soldier  
Sitting there alone  
No one to hold on this empty little road  
Can you come and help me  
To save my own date  
No don't help don't do it please  
I want to walk in this stance  
Until I fall of a lance  
Hitting my shield  
Taking me down hurt me aside  
Of the old space bound  
Cause I walk all alone on the lonely little road

# My Song

MY SONG-

Can't you see what's wrong  
The world is almost gone  
It rotates round and round  
With no encouraging sounds  
As your running to the end  
The path leads you to win  
With everyone by your side  
Looking up with all the pride  
All the pride  
So funny when  
We fly  
Ill tell you that  
We wont die  
Hear my voice tonight  
Hear my voice tonight  
Telling me im looking at the stars tonight  
Ima  
Be the man I want to be  
Is that alright  
And uh  
Look at my records yo  
Im not super bright  
And uh  
Think this peeps  
We will unite  
Ima man of my word  
I say what I say  
You cant ever change that  
About me today  
I look at the sun  
And I say ok  
But this is the swag  
That made me sway

Im reaching out to you  
Your reaching out to me  
I wish I had you

You are my destiny  
Your everything I want  
Your everything I need  
This is my last call  
Cause im about to leave  
Cause im about to leave

I wish I could  
Just succeed  
But this world was not expecting me  
But now im here  
And im saying  
Looking up  
Singing now  
Singing rough  
Running fast  
Slowing down  
Gaining trust  
Sneaking around  
Cause  
Ill be seein  
Ill be runnin  
Ill be throwin  
Ill be jumpin  
Ill be screamin  
Ill be lookin  
Ill be happy  
Ill be jukin yeah yeah 1 more time  
Ehhh here we go  
Let me see  
The music flowing  
Ohh here we go  
Let me see  
The money showing  
You tell me  
I got it  
The spotlights  
The logics  
the people  
the tropics  
the terrible topics  
the singers

the dancers  
the presidents  
the players  
the people  
who are the best in the country

ill be dodging  
ill be rushin  
ill be prankin  
ill be crushing  
you can tell me that im crazy  
but that wont mean nothing  
ill be blockin  
ill be flyin  
Ill be lookin like im dieing  
But cant you see  
At least im tryin  
Im the man of my world  
I listen to my self  
I don't need any money  
Cause my life is my wealth  
Got my friends  
Got my glory  
And yes I may be boring  
Got the world in my hands  
And I'm going to do a dance  
Cause you know what  
This is my lifespan.

Can't you see what's wrong?  
The world is almost gone  
It rotates round and round  
With no encouraging sounds  
As your running to the end  
The path leads you to win  
With everyone by your side  
Looking up with all the pride  
All the pride  
So funny when  
We fly  
Ill tell you that  
We wont die

Hear my voice tonight  
Hear my voice tonight

# Shadows

You may fall  
You may cry  
You may listen  
And you may die  
Do you know how I feel?  
So alone so peeled  
I feel like it's over  
I have given up  
Shadows bring you down  
But you bring you up  
We shall live  
We shall fall  
We shall cry  
And then stand tall

Mason KT Goldstein

# Smiles

these smiles are amazing  
filled with joy  
the faces are crazy  
people may enjoy  
a little of love  
thrown in with it all  
love may shine  
into the ball  
we may all have smiles  
upon our faces  
show me that you arnt the crazies  
hate and war will never solve  
it will fix with a smile we call  
so here we all stand  
with smile on our faces  
and now we put no such as discrases

Mason KT Goldstein

# Sun

SUN

A nice hoary light  
Shining in your face  
Fiends are gone  
Kins are here  
The sun  
Such a bright light  
So nice  
Filled with such delight.

Mason KT Goldstein

# Take Me Away

TAKE ME AWAY-

Bury me deep in your heart  
And hide me in the dark  
Don't let in the light  
Never let me go  
Hold me tight  
Don't ever let me go away  
And please no saying goodnight  
Hold my hand when your close  
Tell me that you have hope  
Tell who it really is  
The person that you shall love most.

Mason KT Goldstein

# The Landscape

## THE LANDSCAPE

Green and blue  
Trees so new  
Sky trapping the large igloo  
Cars passing by  
Stars up in the sky  
The moon you can not see  
The sun that is too be  
The ground so hot and pure  
The soil dry and inquire  
The worlds making in name  
The earth's great proclaim.

Mason KT Goldstein

# The Last Homebound Shame

to my last zone  
we may have not known each other for long  
but now we are the best of the song  
its so sad we will split in both ways  
...we will not see  
the prophesying future  
its so tyrannous to be leaving your side  
i wish i could have said 1 more goodbye  
but now i am woful for reason manifold  
i will miss you and some day we shall return home

Mason KT Goldstein

# Time

TIME

Time is like life  
It always passes by  
There never any stopping it  
Not even when you die  
I guess its all I can say  
Is not even when you fly  
The time never passes by.

Mason KT Goldstein

# War

a long hefty night  
all the days and all the nights  
all the wondering upon the worlds natural song  
why cant we just unite  
a world with hate and fights  
with colinizing to endure  
the fighting never stopping  
when the world thinks to find a cure  
the blood, the pain, the love so insicure  
the people bad at aims  
and yet the world still cant be tamed  
nothing to say  
just a long hefty night  
all the people that have gone to sleep tonight  
but aahvn't left the light  
but tonight they say goodnight

Mason KT Goldstein

# What A Land

A blue shadowing the world  
A clear azul large pearl  
So clear, transparent too  
A life filled with blue  
You look up into the light  
Nothing blocking your sight  
Just blue beautiful delight  
You sit here thinking wow  
The world is just how  
How is this so nice  
Allowing to sit here with no price  
3 birds gliding over  
Makes you so non sober  
Your life filled with pride  
As you look up to the sky

Mason KT Goldstein

# What May Love Do

3 love

She said please don't go  
She said your everything I need  
She said oh please oh please  
Please don't leave me  
But yes it's too late  
You're already gone  
All damage is done, plus the harm  
I loved you so much  
You where my world  
But I guess you didn't know  
Who had the pearl?

#2

Have you ever felt  
Your love might be gone  
Cause all the people  
That hand you harm  
The pain that is delt  
The heart the is yelped  
Help me help me  
My life is depleting  
By helping the war  
Where people die  
But people ignore

#3

My heart is big  
My love is small  
My hands are twigs  
But I never fall  
I have limited love  
Time by time  
Even when I love  
I start to die.

love may sometimes hurt  
love may sometimes not

love may be the healer  
to every one  
people who may hate  
people who may pick  
people who may hope that a life is not to stick with  
so many lives in just 1 body  
what might be the limit of the short ended sight

Mason KT Goldstein

# What The What

WHAT THE WHAT

What the what are you trying to say  
What the what is wrong with you today  
How in the world do you want to say  
You never know why the world  
Will always be filled with girls  
Why in the world is there love  
What the what people can never tell
