# Friends

friends are there, there for life  
they help you when you get in strife  
they are there when you are sad  
they make life seem not so bad  
when you are happy they share your joy  
with your feelings they never do toy  
when you are hurt they show they care  
even when others wouldn't even dare  
when you have done wrong, they do not judge  
by your side they stand, never will they budge  
when you have problems they are there  
to listen and for you to share  
when you are lonely they are near  
friends like this are very, very dear  
but friends i do not mean  
for only one is like this as far as can be seen  
and that is true  
because that friend is you

# I Was There

i cried all night without his light i prayed out God where are you then i heard  
the almighty speak i was there with you in the night i was there through the pain  
and strife i was there when you fell dont worry i was there i am here for you  
come cry on my shoulder dont worry i was there i was there when you felt alone  
through death i was there i'll be there through life i was there

# Just Another Love Poem

The wind caresses your hair,  
whispers touching the edge of your ears,  
begging for some sort of attention.  
Begging to be brought back into being.  
Begging to be brought back home.  
To end, is to begin.  
It's the balance.  
of life and death  
one comes one goes  
gone with the wind

# Liar

Why do you have to lie? Why do you have to break my trust? Why do you even try to lie? i know you inside out, you dont even know me on the outside, yeti even know you on the inside you where everthing to me at a time in my life saying my namesaying goodbye you meant the world to me i trusted you i was in love with you do i dare not try i might get hurt all over again i may not even recover if the pain ever ends i might fight for honorbut you didnt give me a chance im walking awayi no longer cares what happensi may be killed and yet you say so what i dont care im not even going out to war and yet im fighting a battle i cant even win love is a battle i just lost to a lack of trust i guess i never did move from where i was i miss you so so muchim not sure how to tell you thisbut you lied way to muchfor me evenif youdid stop to think it wontchange a single thingyou lied and tore us apart you saidyou would changeinsteadyou tore my trust apart and for that im sorry i say to you goodbye for the last time

# Mothers Day

one has but one life to live what is a life but to live what is death but to die what  
is the day we all forget the ones who care for there sons and dauthers they raise  
it is my mother i love this day only she could feel this way it is not me to feel this  
way but to rejoice with you this mothers day i wish to make things better for you  
i know of one way for it to be true it is to say i love you

## New Point Of View

I saw a man shaking some change in a coffee cup gave him a dollar said to give up told me he was hungry said he had a family i turned around started to walk away heard a little voice inside me say what if its true

What if he is hungry? What he has a family? how did you get here how did you end up on the street where did it go wrong wonder what i would do if it where me

a new point of view a walk in your shoes i wonder what i would do if you where me

# No Love / Just Fate

Love what is love,  
is it not the confusion we create threw the misconception of another four letter  
word -Lust

-

Lust what is lust,  
but ones sensual desire to explore someone elses body with the soul intention of  
pleasure without commitment therefore avoiding the most important but five  
letter word -Trust

-

Trust what is trust,  
is it not the secret to everlasting friendship threw the disposal of another four  
letter word-Envy

-

Envy what is envy,  
but the one thing most capable of destroying the illusion of love for it is the main  
cause of my next four letter word-Pain

-

Pain what is pain,  
is it not what we all have to endure to to maintain that which we are misled to  
desire from birth -Love

-

Love what is love,  
is it not the illusion we create in ones own mind to dissolve our deepest  
subconscious fear of dieing alone even though we have not the choice due to this  
four letter word-Fate

-

Fate what is fate,  
is it not inevitable

# Should Have

I am centred by my fear  
I am hollowed when you're near  
Can you feel the passion deep in here  
Do you understand the tears  
I should've known, you would leave me this way  
I should've known, you'd have to leave  
You could've shown, some dignity  
You could have shown me what to believe

What's the price I'll have to pay  
Should I take the offer you make  
What's the least I'll have to say  
Eye to eye we meet and then you take

## Still Wo4rking On This One

love flows naturely  
like a river flows  
like the snow falls  
like the rain down it goes its so peaceful to see

mike hayes

# Tears From Heaven

rain is like tears from heaven  
when an angel cries thats tears from heaven  
thats tears from heaven  
thats how we know that he cares  
because of the tears from heaven

mike hayes

# Thats The Way Love Is

Tell me what else can i do?  
Tell me what else can i say?  
The closer that i get to you  
The further you push me away  
Till i don't know where to go  
And i dont know why i stay  
Do you even care  
Or am i some little game you play?

Are you ever gonna need me baby  
Like i need you?  
Are you ever gonna want me baby  
The way i want you to?  
I know that you love me  
Oh i know down deep you do  
But are you ever gonna love me  
The way i love you?

I never know how you feel  
I can't read your mind  
I just keep waiting  
Am i just waisting time?

Are you ever gonna need me baby  
Like i need you?  
Are you ever gonna want me baby  
The way i want you to?  
I know that you love me  
Oh i know down deep you do  
But are you ever gonna love me  
Are you ever gonna love me  
The way i love you?

# Weather

In the heat of the night  
I felt the moon rise  
A pearl pudding between two mounds  
Full and round

A cool breeze caressing  
The heat that is emanating  
Hot like a volcano flow within the ground

Pushing and Pulsating  
The Earth moves anticipating  
The eruption that must come forth

Will you wait and watch  
The marvel, awesome to behold  
Knowing it threatens to consume your soul.

# Why

Why is it we cant stand behind our beliefs any more?

Why cant we believe in god?

Why do we have to believe in someone powerful?

Why do we have to ask oprah what to do?

Why do we insist we are our own creators that there is no god?

Why do we tell ourselves there is no god im am god when we arent?

Why do i have to arguee my point i know im right?

When are we going to believe christ paid the way?

3 nails +1 cross = 4given

Why dont we trust him any more?

Why do we deny him in a crowd?

What is our problem with christ?

# You

Lately when I see you I want to go up and kiss you  
When you smile at me I feel like I can run free  
It seemed like a funny thing from the start  
We said we'd never part

You make me want to give you the world  
Cause your my baby girl  
I hate to see you cry cause it makes me want to die  
When you are looking down it makes me frown

When you are mad it makes me feel sad  
Everytime i see you i miss you  
I want to kiss you  
Somethings will change others will stay the same

I want to jump and fly and say never cry  
I will whip every tear from your eye till the day i die  
This is what i feel for you though im not with you  
Your my lucky number seven straight from heaven

My love for you is true  
I'll always love you  
Because i love you i'll never leave you
