First Attraction

When u look at me every single time I fall in love with u

When u bring that big clink smile I fall in love with you

When u rule over my thoughts I fall in love with u

When u get deep into my sigh I fall in love with you

'Don't let creepers to come as they waiting for u let me b the one who see hisgod
in you'

My life is walk that wants destination as you

But the freaking crowd can't let me with u

Whenever I try to say my love belongs to y

Oh that time! ! The roadsides makes a hope around you

'Don't let roadsides to step as they falling for u let me be the one who see his
god in you'

My nights really come after when I see myself in you

So baby! ! I m living in state that mind can't think without you

You been in my heart as there's no one like u

Why can't you see my heart beating for u

'My heart loves an angel the angel reveals u
As there's nothing adorable can match up with you'

My heart's just dying for a dream and thatdream is you

I know m not that good who can reach upto you

But just wanted a chance to prove my love to you

Whatever u gonna say m still waiting for u

I showed up myself, Now love me or not that depends on you at last I say

I love u Honey Bunch..??????????????????

I Am Sorry

Title- I am Sorry????

When u walk off, My senses ceaseO

The more u try to hate me, the more my love increase??

The times with wet eyes, dreaming to kiss you??

I prefer to b hanged, more than pain to miss you??

Evil I am, who makes u sad?

Making u angry, implies m bad??

The heart beats for u, wish I could throw it??

The name written on it, wish I could show it??

Wish I can express you, how sad I feel??

Wish I can have ur lovetablet, to get myself cure and heal??

The way I treat myself, people call it madness??

Wonna see you happy, so what if m facing sadness??

The world loves you, But m the one who means.??

Once you visit my brain, its filled by your dreams??

What I feel for u, even I can't show it????

No one love you like me, I really know it??

Some of my love, some of my guilt, a bit of my sad story?

Oh merciful love! ! ! Forgive me I m really sorry??????

I Need You

Right in the corner sitting next to door

Tears flowing down, lying on the floor

Feeling helpless in your complaint's palisade

Guilt for all silly actions I made

Fighting with myself bt still adoring you

Incomplete I am yes I need you

Sometimes feeling heartless, loosing God's grace

But god reminds me, when I see your face

Choke in my senses on every passing day

Alone on road looking for a way

As my god, as my destination, I want you

Incomplete I am, yes I need you

Having all sorrows, but no one to share

Bleeding wounds, but no one to care

Those bleeding wounds, someday I ll show

But once u came to, I ll never let you go

Please be back, as caring were you

Incomplete I am, yes I need you

My Death

When the day will come, Moment I'll die

I'll be searching always, where will u lie

You'll rule over my words, until last breath

The day I wanna see you, on the day of my death

Some will be sad, some eyes be dry

While my forever sleep, will u cry? ? ?

All relations will be ended, but one I'll pack

The thing I'll take with me, be my heart which u hacked

My body will be thrown as lonely piece of wood

But memories will come along wherever we stood

For a second I'll be alive, not stable for a while

Just before meeting god will remember ur pretty smile

When u'll be back home, u'll forget me

But I'll thank every moment u tolerated me

I'll be valued like now a days cash

Rather turning in flames, I'll love being Ash

I'll cheat god, from sky I'll see you

Even after my death, I'll keep on loving you

That First Look

First sight, First Endeavour that first look??

Some lovely words, On my heart's Wordless book??

The first cherub in my adolescence ????

Stumped! It was a nymph or a fragrance ??

Mesmerizing voice, A goddess like walk????

Dreaming for hours, To have first talk????

Eyes felt shy, was that Highness O

Thoughts got faded, She was that happiness??

Lost my heart, by making her heartbeat?

The word beautiful really is a synonym of her feet????

Was radiant like moon,
Cute like a doll??

The Days Of Heaven

Title-The days of heaven

Irritating uniforms, Praying at morrows????

Once I had a time, called life without sorrows??

That buzzing alarms, shouts wake up?

But morning starts, when my minds allows up??

Running for school as fast as train??

Test on first lecture was the biggest pain?

Drawing on benches, art of joy???

There was a time, when pencil was a toy?

Laughing like idiots, for no reasons??

Now Time changed, like change in seasons

That boaring lecture, angry for a while??

The moment teacher leaves, makes all smile??

That first bench, oh pretty my crush????

The angel in blue spcks, makes me blushO

Staring at her, trying to b cool

The way she thinks for me, I was a fool??

Those dreams are incomplete, what I saw for her??

No matter so many girls, but I still wait for her??

The last day of school, with all wet eyes??

Some dreams, some aspirations, some cute smiles??

That huge group photo, use to kiss them??

The day I had in school, I really miss them??

Wish I can reborn, restart that childhood track again????

I beg god always, wish I can get school life back againO

The Queen

Abound of flowers, But the queen is one

Whom love itself loves u r the one

Nights of life, U have Stars like shine

Sadness can't reach me till u r mine

Precious than a gem as well a diamond ring

Simplicity gets surprised By magic u bring

Eyes like mermaid, Looks like a doll

The ocean of lovely eyes where I wanna fall

The cuteness at heights, My heart adored it

Kept my heart to myself but ur shades stole it

Maturity of thinking, Heart is neat

Heart I have but u r the beat

Cindrella like charm, Angel like voice

Doubt myself on having best choice

Sorrows run away oh pretty! ! When it sees you

Oh dear honey wale bunch I love you

Without You

Rainfall, Rainfall eyes are wet overall??

Drops falling on me, let me remember my doll??

You Are Mine

You stepped to my life, when I was on the floor??

Seemed like god just opened, "The happiness door"??

I fell down and u picked me up????

I was hollow and u filled me up??

I'd have lost my radiance, but u gave me ur shine?

"U always lemme feel, u r only and only mine??"

Glee to despair, everything we shared???

Every dilemma of life, together we beared???

In the sky of my happiness, u r my shining moon??

When blues condensed me, u made me bloom??

I'd have continued crying, if u didn't cease my whine??

U always lemme feel u r only and only mine??
