## (heaven) (Hell)

Loving past hurts so much.  
Heaven was so near, but you couldn't touch.  
Warm butterflys around the heart glowing.  
fresh air in lungs flowing.  
Breathing the rose's of blossom.  
She walks away.  
Your head begins to sway.  
Heart stops beating.  
Soul is heavenly eatten.  
Blood taste like poison.  
Organs dieing.  
Tears off crying.  
World stops.  
Life beigins.  
Hell not heaven.

# A Blade Twinkles So Bright.

twinkle twinkle blade so bright. how you helped me through the night. twinkle  
twinkle blade so bright. how you helped me through the night.  
since your vain nice and slow. watch the bloody arm drip and flow.  
feel it burn so sore. how it makes you want more and more.  
your body is weak heart is starting to drop. slowly your body hits the floor.  
twinkle twinkle blade so bright. how you helped me through the night. twinkle  
twinkle blade so bright. how you helped me through the night. night. 1,000 cut's  
are taking its tour. now give up you have lost the bloody war.. nothing to love  
nothing to hold. no one to see nothing that can be. now your dying it's too late.  
now you have no one but a blade that is your best friend twinkle blade so bright. how  
you helped me through the night. twinkle twinkle blade so bright. how you  
helped me through the night. . eye's starting to close. heaven is near you look up  
twice but no stairs appear. you wonder where you going no fear to die no tear to  
dry. floating up now your going down to a place called hell you have lost your  
crown. twinkle twinkle blade so bright. how you helped me through the night.  
twinkle twinkle blade so bright. how you helped me through the night.

# A Dream

I've dreamed of loving you for many years, Loving you each day and night, each hour, Loving till you flow into my tears, And I into the garden where you flower. Of course I must be me, as you are you, But just as bushes planted side by side So intertwine one cannot tell they're two, We will through love and time be unified. So have I dreamed, though we have been apart So long that I of life with you despaired, Holding wounded hope within my heart That through these frozen years it might be spared. The world is a redaction of the dream. Our greatest pain deep longings shall redeem.

# A Friend

Well what do i think a friend is for and who they are this is why you are a friend to me.. listen closey what i see.. A friend is someone we turn to when our spirits need a lift. A friend is someone we treasure for our friendship is a gift. A friend is someone who fills our lives with beauty, joy, and grace. And makes the whole world we live in a better and happier place. but as u think of you You are friendly, kind and caring Sensitive, loyal and understanding Humorous, fun, secure and true Always there... yes that's you. Special, accepting, exciting and wise Truthful and helpful, with honest blue eyes Confiding, forgiving, cheerful and bright Yes that's you... not one bit of spite. You're one of a kind, different from others Generous, charming, but not one that smothers Optimistic, thoughtful, happy and game But not just another... in the long chain. Appreciative, warm and precious like gold Our friendship won't tarnish or ever grow old You'll always be there, I know that is true I'll always be here... always for you. i also I believe in angels, The kind that heaven sends, I am surrounded by angels, But I call them friends. And in return Standing by, All the way. Here to help you through your day. Holding you up, When you are weak, Helping you find what it is you seek. Catching your tears, When you cry. Pulling you through when the tide is high. Just being there, Through thick and thin, All just to say, you are my friend. But last I'd like to be the sort of friend that you have been to me; I'd like to be the help that you've been always glad to be; I'd like to mean as much to you each minute of the day As you have meant, old friend of mine, to me along the way. I'd like to do the big things and the splendid things for you, To brush the gray from out your skies and leave them only blue; I'd like to say the kindly things that I so oft have heard, And feel that I could rouse your soul the way that mine you've stirred. I'd like to give you back the joy that you have given me, Yet that were wishing you a need I hope will never be; I'd like to make you feel as rich as I, who travel on Undaunted in the darkest hours with you to lean upon. I'm wishing at this time that I could but repay A portion of the gladness that you've strewn along my way; And could I have one wish this year, this only would it be: I'd like to be the sort of friend that you have been to me.

# Angels (Crys)

A angel cry's tear's off frost.  
help now she is lost.  
when she falls i will catch her.  
see her sad eye's i stop and stair.  
pick her up when she is down.  
place the halo back on her crown.  
as a princess she may look.  
but really shes a angel her life is a book.  
tears off frost the angel crys.  
please don't fear,  
i am here.  
please angel dry your eye's..

## Angels In Heave. (Leah Weston)

Angels in heaven will alwas look down on me,  
Angels in heaven will tell me what i can not see.  
Angels in heaven could this be,  
My true sweet love standing in front off me.  
Ocean to heaven oh please let me be,  
With the one i love.  
Please help me sweet white little dove.  
Sun so bright.  
Isn't she sun a beautiful sight.  
All i want to hold her tight.  
And gaurd her safely through the night.  
Oh how i love her. how much its true,  
Untill the day she says oh i do..

# Broken Heart.

when the sun set's in.. A new life will begian. Away from you in a world so blue.  
The tear's turn to ice, the blade start's to slice. A open whole to were my heart  
once sat. Now you left it is free at last. leaveing a blood tail once behind to find  
the lonely dark cold world we can not defind..

# Dear Father

Thank you for being there. Thank you for showing that you care. I will always look up to the stars and stair. You give me eyes so I could see. Give me lips so I could breath give me a heart so I could love. But you give me a life so I can be free. Now you have passed on to a better place. Are love will never be replaced. The sun shapes in to your face to watch the sunrise warm and bright to realise you gave me a beautiful life. If I could do anything to bring you back my soul and heart I will sacrifice to give you life as you done for me. I will always look at the pitcher in my mind and my heart I will always love you for who you are. Now rest in peace and never fear because I know you always will be near. As you watch over me everyday I pray till the day we meet again ill keep you in my heart my friend. You wasn't just a friend to help me by. You was my life why did you have to die.. So I leave one lass message to my dear father I love you and goodbye.

# Death Till Us Apart

As the sweet sound of the morning singing from the sweet bird in the spring nest  
in the green strong tree, i wake up and look at the side of me and only to find out  
what do i see. My heart has gone from my chest and darkness blood it is such a  
mess. Strange things happen as a beautiful girl walks into my room and  
screams WHY! ! your life hasn't even begun, As i gasped for my last breath and i  
said you was my life and my soul now you don't want me i have to go. I  
whispered in your ear i love you and always will please don't you fear. You  
laughed at me and said oh my you must be queer. then she took a gasp of  
breath and said no that was just my fear, she took his hand and cried a tear and  
said i love you so much and always will but at that time he had closed his eyes  
and died. she took the blade and placed herself in his arms and whispered now we  
are free just you and me. There is no other place i would rather be. she took her  
life and screams good night take my heart and hold me tight. and one last thing  
never wake up threw the day-light..

# Eyes

Beautiful eyes, beautiful face, I'm shy to talk to you. you're the eagle I must watch No matter what I do. You're the beauty, wild and free, the mistress of my eyes, Rolling through exultant air, Alone in pristine skies. I would take you for my own Could I but have your wings, Could I but go where night begins And frozen sunlight sings. Could I but have you for my love, How might we fly together! But I must watch you from below And long for you forever. But I must be the one below And long for you forever.

# For You (Heather Kilpatrick)

This is for you.  
Without my baby my heart is so blue.  
Kiss my lips and show me heaven above.  
Hold my hand your the only one i love.  
Do i miss you.  
Off course i do.  
Count the star's.  
multiply by ten.  
Do i miss you.  
Course i do.  
More now, than then.  
Watch the moon.  
Some day soon.  
She will start to smile.  
When i whisper in your ear i will see you in a while.  
Hold my hand.  
Never let go.  
Just rememer i love you so.

neil derek singleton

# Forever

Forever takes me by a minute, While I'm here with you. I'm falling even more  
in love, With everything you do. Hold me in your arms, Look deep into my eyes,  
Don't turn away and let me go, Don't ever tell me lies. I swear I'll never loose  
you, In my arms I'll always hold. I'll never let you slip away, And leave nothing  
left untold. There aren't enough hours, In each passing day, To find all the  
words, I wish I could say. Your kiss will last forever, Your touch forever warm.  
You'll guide me to the sunlight, And shield me from the storm. This is what I'm  
saying, With everything that's true, I swear on my life, That I really do love you.

# How Come?

How come the sun sets in?  
How come my hearts for you?  
How come my soul is blue?  
How love love hasn't begin?  
How come you say your just a sin?  
How come the ocean sways?  
How come the room is dark?  
How come we feel apart?  
How come your only in my heart?  
How come we laugh and cry?  
How come you had a tear in your eye?  
How come did you have to die?  
How come god can't tell my why? ..

neil derek singleton

# How I Feel

Who will I turn to now that your gone? Who will comfort me when my day has been long? Without you here, how will I get by? All I can do is cry and cry My friends are afraid of what I might do They know I'd do anything to be with you While in my mind that seems the best choice I pray for guidance, then I hear your voice We will be together at some point in time For the love that we share is a love that binds It will stand the test of the now and forever To start again on new endeavors Dry your tears, I hate to see you cry Be brave and strong and you'll get by You will get through this, just wait and see Before you know it, it will again be you and me

neil derek singleton

# I Look

I look at the stars to see you..  
I look at the rose to smell you.  
I look at the ocean and see how you made my heart sway.  
I look at the other day and never forget that day.  
I look at the birds that fly to sea.  
I look back when you set me free.  
Now I look and what do I see? .  
I see you right here back with me..

# I Love Her

when ever we see eye contact i become shy. when she smiles i feel like i'm accepted. we walk and talk for a while untill we part as in every day. hustle and bustle of life. but her beauty will ever shine on my dull life, my heart stops for a few when i talk to her or even look at her very inelligent. and hair like seems of gold and strands but she always smlies everyday ever though we are friends we play silly games like elementray school kids it makes me feel warm inside unlike my previous cold harden shell. i write these sotries about her. but always kept them in secrcey. shaying away in the back off the room or staring at her. i hope someday, her smile will guide my courage to her way to bring up the strength of god today i love you..

# Key

The love inside stays looked up,  
Your heart is telling you to let it grow,  
But the world around us is telling us not to let it show,  
For there is pain inside this world,  
It wont let us stay together,  
As pain rules over life its self,  
Love can hurt and kill,  
For are soul can not handle the pain,  
So we should keep it locked up in side,  
And wait for the key,  
Which i have to set you free.

# Love

love is a feeling,  
feelings are in the mind,  
minds are for thinking,  
so i think i love you,  
because i love you,  
i will put your name in circle,  
and not a heart,  
because as hearts can be broken,  
a circle will go on forever.

# Rose Of Death.

Rose's blossom in the midnight air.  
Looking at the angels while the stop and stair.  
Thinking off your true love. Think off the sweet smell in her hair.  
How she love's you smile. And just relax once in a while.  
Missing her day by day. Your heart always want's to sway.  
Thinking off her eye's. Tears off joy.  
How you's brought up a beautiful boy.  
Now you heart begins to stop. tear's flood you out not enough for the mop.  
Thinking to your self why did she die. Oh please god tell me why.  
Let me wake up and let it be a dream. Oh please let it be just a silly lie.  
As i know it is completey true. Now your heart is sore and blue.  
Thinking now what to do. Still have a beloveing son that still loves you.

# Shadow

Knock on the door so I answered. I thought what do I seek. I see flowers dieing from gassy air. No oxygen to breath loosening my hair. Clouds so dark and gray. My head starts to spin and sway, blood drops from the sky. I'm slowly starting to die. My lungs full with tears I drawn in my sleep. Nothing but hate hiding underneath. Heart is sore the days are begin to seek more. More death and anger mostly pain. Living in this dimension is not a game. Why should I live why should I breath nothing to stop me behind to leave, sounds in my mind starting to think my body is weaken my heart is staring to sink. Now close my eyes and never awake now she has gone. I'm stuck in this dark cold place. No time to spear no time to lose. I open my door but she is still not there.

neil derek singleton

# She

She was cursed by her own vanity And tended to feel tragedy too well She held on To the blue dress she kept in her attic To nights of static Knights in white and fashion to kill She knew herself well With the pretty red bow she tied over her hair And memories of when next to nothing was ill From pills, to thrills, and starting fights And racking up the phone bill For a lover's conversation in the night For the want of him by her side For the promise of photo slides And champagne, and moonlight To taking down a life To talking down your wife When she screams, things will fly And hit the door To the parting of the four For the night that was the beginning Of the ending of what's right And nice and safe, She took her place Against the wall with the others who had Turned away from grace

neil derek singleton

# Soo Blue

my hearts so blue i wounder what can i do..

take my life and knock on heavens door..  
i look for you.  
i look for more...  
please tell me what i do..  
please tell me you love me too..

# Space

I lie on the ground, and stare into space, the stars start to move, into the shape of your face. I see you there now, looking down at me, with that cute little smile, that I like to see. You say 'close your eyes', 'tell me what you see', I see only two people, just you and me. We're walking the shoreline, with our feet getting wet, the horizon turns pink, as the sun starts to set. We make love through the night, on that white sandy shore, then I hold you while thinking, I could want nothing more. Oh I wish I could be, in that one special place, as I lie on the ground, and I stare into space.

neil derek singleton

# The Unknown Solider

The unknown soldier, I'm sorry, I don't know your name. How do you handle your stardom? Cope with anonymous fame? We owe you so much, have so much to be thankful for, you gave your life for us, fighting someone else's bloody war. And I try to picture you, teenage and full of spirit, I don't believe you would have questioned, the war, and why you was in it. So you would have said farewell, to your family, maybe a friend, never thought about not coming back, didn't imagine your journey's end. You went straight into battle. Blood, guts, shells, gas and noise. Just can't imagine the destruction, caused by the distant generals' were struck your mortal blow, I can see you bloody and dying, maybe thinking of your loved ones, maybe even crying. Maybe you would have been scared, maybe glad your war was done. But your pride and spirit wouldn't have faltered, to the end you were your country's son. Because you knew what you was fighting for, back when men were truly men, and despite the horrors that you endured, without hesitation, you would do it all again. I look at the world you fought for, (with the benefit of hindsight) .I question the worthy sacrifice, would I send my sons to fight? And after searching my soul, I find the answer deep ty is worth dying for, without freedom, you can never begin. And you have been dead many long years, your glory is moving to history past. But I know your legend will live on, I know your unknown name will last.

neil derek singleton

# True Love

Put your arms around me Hold me just like this Cover me with love So much I  
don't exist Heal me far from pain Start long before you end Give me reasons to  
believe We should let this love ascend free me from my worries Obliterate my  
doubt Leave the past behind And seek the future out Go beyond your limit We'll  
pass the others by And make love part of history That no one can defy So, put  
your arms around me Let our hearts demure Hold me for as long as you can And  
let this love endure.

neil derek singleton

# When

When I come to the end of the road And the sun has set for me I want no rites in a gloom-filled room. Why cry for a soul set free? Miss me a little-but not too long and not with your head bowed low. Remember the love that we once shared, Miss me-but let me go. For this is a journey that we all must take And each must go alone. it's all a part of the Master's plan, A step on the road to home When you are lonely and sick of heart Go to the friends we know And bury your sorrows in doing good deeds. Miss Me-But Let me Go!

neil derek singleton

# When I

As I woke to the sun rushing through my window My mind was filled with thoughts other As the sun filled my room with warmth it reminded me Of the warmth I feel from within her heart I walk outside into the beautiful warm sunshine A gentle breeze brushes softly against my face It reminds me of her soft kisses, her gentle touch I stand and close my eyes, I feel her hands touch me I feel her breath softly on my neck I turn and as I take her in my arms I whisper softly What a beautiful day A special world for you and me A special bond one cannot see It wraps us up in its cocoon And holds us fiercely in its womb. Its fingers spread like fine spun gold Gently nestling us to the fold Like silken thread it holds us fast Bonds like this are meant to last. And though at times a thread may break A new one forms in its waken To bind us closer and keep us strong In a special world, where we belong. So often when I am embracing you, It seems that you exist in this world only because of me and I exist because of you. It's not easy to wander in this world and not lose one's way, but the greatest happiness of all is in giving joy to one's beloved. And if the king can have his throne, and if the bird can have his Spring nest, and God can have his heaven, then I, my sweetheart, I can have you!

# When I Dream

when i dream, i dream of you, Then i realized you made them come true, Thats why i love you, you close your eyes and see me too, And i ask do you love me as i love you. you've shown me that angels are true, now kiss my lips and show me heave is to. take my hand and make a wish. i will make your dreams come true, hold my hand and come with me. the pain you have i will set free. say you will be here for me.

neil derek singleton

# Your Here

I hear the wind call my name calling me home back to you again, I see the rose's blossom from earth are love is true and not a curse. I see the sun rise from the ocean bay. And all I think about is you every day. See the birds sing at spring. Your voice off a angel and give me wings. See the moon shine so bright in the sky. Your eyes are my light to never fear or cry, kissing my lips brings me closer to you. Now I've seen a angel so me heaven too. Every day I sit and wait. My love for you is my heart on a plate. Come with me far away and I will whisper in your ear I will always stay.

neil derek singleton

# You'Ur

You're the first thing  
I think of Each morning when I rise.  
You're the last thing I think of Each night when I close my eyes.  
You're in each thought I have And every breath I take.  
My feelings are growing stronger With every move I make.  
I want to prove I love you But that's the hardest part.  
So, I'm giving all I have to give To you...  
I give my heart.

Now this is not made by me but my favorite poems i have ever read as you can see its so beautiful.
