# A Road

Destiny let us meet on the road  
but not for us get together  
it's the reason why we're here  
it's the reason why we get to go on  
just like the river gets to flow on  
whatever happens tomorrow...it won't bring me by your side  
but someone will replace me and love you  
pull my thoughts together... only in those moments i dream of you  
but i'll always remember  
the kisses that we exchanged... sweet words  
struggles hug each other tightly  
i just want to hug you  
i will not let go ever  
i want you to belong to me 4ever  
so that i could protect you and keep you away from all the dangerous  
but the truth can not be changed  
and i know i am not the one  
those words you said... i will keep in here(my heart)  
and you know... i hope that one day you will come back.  
steps are slow to let someone go  
behind our past we have not yet forgotten  
look to the horizon where  
you can see the light of dawn  
what are you doing right now? happy or sad i just wonder?  
is there ever a moment that you think of me?  
i shall remain so, still loving as before  
still watching you in darkness  
i look at the sky  
look up a question in my mind  
when are you going to smile at me like before?  
i'll try  
try to forget those memories  
the peaceful days we had together  
however, the harder i try  
the harder it is to let you go  
whatever tomorrow brings i'll face it  
with the light inside this dark heart  
that you will come back

# Dare Not Look

Today in class where you so close  
I dare not glare coz i was fear  
That you might knew those eyes were near  
I was wonder, could you feel that my feeling have never change  
Today in class, i just want to say ' still love you'  
but there my fear, who cuts my wings  
    becomes my king  
keep up the hope, one day could say before too late  
My friends had said, I am a fool  
Why not give up, move on with life  
Just as you do?  
But it too late, my heart had drew  
a perfect picture of you.....

# Sorry

dear my friends  
life is too short for we to knw  
sometime we make mistake  
we dont even realize it  
sometime we try to share the feel  
but we never understand it  
hate and more hate to me  
love and like our friend  
help and smile with the world  
coz we never knw whn life is end  
hope one day sun will rise  
everything will be back  
hate and more hate still there  
time will never end untill  
we all die  
hate can be stop unless  
we can go back  
fix all the mistakes  
that we take  
sorry is too late whn it done  
said it but cant fix it  
hate just hate it more  
love it and be friendly to the world...

# Story Of Love

'one step at a time'  
remember back in time...

there we meet the first time  
just like in the drama  
where Faith has send you to me  
as if 1 day i realize  
that i really like you  
but i dare not to say  
fear that if i do, i lose our friendship  
so i keep it inside

There suddenly 1 magical day comes  
My heart turns into a crumb of cakes  
That note has change a part of me forever.....

as there the time pass by  
we talk more and more, i dont know why

Suddenly one day, Faith decides to test me  
He takes you away from me.....  
For the movement in me  
There is only dark cloud  
But still walk on w\ the fake smile  
In order to see you smile

Many moths pass  
Time fly as the wind  
See you smile with other guy  
Hurt so much but keep inside  
Part happy because I am able to see you happy

Then 1 magical day.....  
You talk to me  
At the movement, I dare not put hope it to future

As time pass  
You say " I like still like you"  
The dark cloud that cover my hart start to disappear

On step at the time we come together  
Now that we striving forever together  
"one step at a time" hoping to be together

# What Happen To You?

u know many days, hoping to see you again  
u know many times, i send you the message  
but there are no reply  
from the calls, the messages  
there are no reply  
i feel like you try to ignore me  
LOOK back in time  
when everytime i send messages or calls  
there you reply with the smile  
sometimes you even call before i do..  
where are those time?  
where they go?  
dont ask me, 'cause i cant answer  
the only one can answer is you
