# Brilliant Silence

The untold story of inner sites  
In human creation, that bent the  
Rules of humanity, modified, speechless  
Blindfold surfing on the edge  
Of ice frozen blood ☐  
Till hits the iceberg  
Wake up call to the universe  
Nine one, one  
World stage blast, collapse  
An extraordinary visionary high rise  
Hit the soundboard  
As ground braking in tears  
Lights went dark on the edge  
Of the human soul tower  
Within the power of the  
Hourglass sequence  
Soul sound speaks  
Not guilty  
Time spirits mesmerized  
By beats of judgment  
When gravity obeys in  
Immaculate balance the  
Physical order of the universe  
The revival of the magical  
Hourglass sequence, undignified  
Just keeps the flow of streaming  
Down extremes  
Its internal gives in  
Behold brilliant silence

# Cuddle

Cuddle

soul in phase disappeared  
wisdom of the unknown  
your magical divine  
touched by the universe  
the physical world ties you  
to groundless edge

let your soul's cuddle try  
like an orphan's sky embrace  
wings of angel scarify  
the answer lies  
in god's hands  
like secret orchard's heaven  
tangerines from god's place  
carries on reflection  
staring at your face

from downhillscrapers  
by world design  
with gesture some tranquility  
strumming on this cold day  
craving for a sign  
so power gifted  
rising above  
the bittersweet and smile  
lift your eyes as tender  
moment penetrates  
your soft eyes tearing on your cheek  
sliding a touch above the hearts  
and disappeared  
tangible as life ride  
suddenly surrounds you  
as you carry on live story  
staring at your face  
through eternal surge  
lethal clandestine urge  
desolate  
dispersed by blaze of colors

as lustrous wave beyond its glow  
soul in phase disappeared
