I Know Cutting Will

i know cutting leaves scares i know
cutting will leave pain i know
cutting will push my family away i know
cutting will push my friends even more away i know
i will have to hide the scares so i don't get judged by others i know
it hurts my friends and family or at least the ones who still love me
i know i hate my mother cuz she is the one who started my problem
cuz she is never there for me cuz she doesn't love and i also know my dad will
allways be there for me and he will allways love and never give up on me
unlike my mother.
