Happy Valentines Day

Happy Valentines day
It's great to be next to you today
You are my favourite girl
You're the most important thing in my world

You're so beautiful to me
You've opened your heart to me
You hold the lock
I hold the key

When I'm feeling down
You've allways been around
You put a smile on my face
So I say Happy Valentines day

Samir Ahmed

Keep Moving Forwards

Death is a ticking clock
It comes when you think it to not
It will take you by surprise
So girls and boys be wise
Treat everyday like its your last
Never look back at the past
Allways keep your head held high
Even when you want to cry
Keep moving forwards raise your chin
With the right attitutde you WILL win

Samir Ahmed

Planet Earth

Planet Earth is dying
The north pole is crying
There is pollution in the air
Yet mankind does not care
We all need to be aware
Of the danger that draws near
But if we all come together
We can make our homes last forever
There are many things you can do
Turn off the T.V. try something new
Cycle to school forget the car
Turn off the light and you can shine like a star
The paper won't recycle itself
The trees and forests need our help
T.V. and games may be fun
But when the paper and oil is gone
Then there will be no more Sun
Then there will be nowhere to run
So as the Earth's temperature increases
The North and South poles are falling to pieces
This tragedy can be undone
So that our children and grand children can have fun
