Experience

I have been in there
I was there before
Into heart thrilling movement of the world
So attracting, convincing and full of pleasing that you feel like to resist but you can't

I have been in there
I was there before
But now am here, not to judge but to tell that heart thrilling movement of the world is full of wickedness
That many are granted different types of medals, Insanity, Infections and others are swallowed by the ground

I have been in there
I was there before
But now am here, to remind you that the same world you have a right
To chose what wrong or right
for you to be in darkness or light
But remember never to be spiritually dirty in God's sight

thank you

Inconsiderate

we could still move
we had no other way
But the narrow bush way
With a walking chimney in front

The Chimney not even thinking of us that we are walking behind
The chimney producing smoke but no one was cooking

Indeed this man was inconsiderate in a narrow bush way
He was in front of us and smoking as well

Marriage

It was already there
Waiting for me to reach 6 years
I wonder why it is not called early marriage
I wonder why is not even Included in child rights abuse
Organization all over the world supporting it

It seemed bad when I was just engaged
I never new that the same marriage is a key to my success
I never knew mind will be opened
this marriage is so great
Marry school! ! !

Not Temporary

I have my phone
But its battery gets low sometimes
I have my friends
But they have homes too, they leave

Nothing permanent to be closer
I can't talk to my car land cruiser
It makes me to feel like a loser

But now am no longer feeling the coldness
For I have a spouse who gives me happiness
I don't mean Mary, Jane and Grady's
For their intention is to give me worries

I have God who is always there
responsible and full of care
Whom anytime my concerns I can share
now I feel warmly for life is fair

thank you
