Amazing World - The Art Of Nature

who creates the world
Made amazing
Created universe full of stars,
decorated planets in the sky,
made the sun
brightened the whole universe,
which never found extinguished,
sometimes an edge,
sometimes the second strand,
salutes to earth,
moon came on earth,
sometimes half,
sometimes whole is brightened,
Scattered soil on the earth,
decorated it with many colors,
air, water shed on the earth,
Natural music plays everywhere,
Changes season arrives,
According to age made all organisms,
makes them put life,
someone on earth,
someone flew in sky,
someone underground is hidden,
you dwells in all heart,
you does all nutrition,
every thing collectively fabricate,
world resettled in visual imagination,
everything planted on earth,
Everything is mixed in the soil,
when world life the crisis came,
to become the Messiah come you,
to world showed the right path,
evidence of your presence, found on earth,
on your marks, world bowed his head!
you curves everything in the world,
moment to moment the changes,
become angel descend on earth,
the human mind, thinking upright filling,
which, moment by moment, falters with nature!
