# A Hug To Say I Love You

A Hug To Say I Love You

A hug to say I need you  
A hug to say I care  
When the nights are cold and lonely  
I promise I'll be there  
Though the miles they separate us  
My love for you still grows  
Though I can't be there to hold you  
You're always in my heart  
Just close your eyes a moment  
Just listen carefully  
You'll hear my voice calling  
In the whisper of the breeze  
You'll know that I am with you  
As each new sunrise comes  
You'll know how much I love you  
As the moon softly sheds her light  
As you lay there sweetly sleeping  
Feel the touch of my loving hands  
A hug to say I Love You  
Till we're together again

# Anticipation

It would be nearly impossible to explore in depth,  
And explain to you the way I feel with each passing day.  
All I know is that it grows stronger with each passing breath  
It doesn't matter the distance - the inches between us feel too far away.

There was a time in my life when I knew not what to do  
And searched constantly, aimlessly for something, anything to fill  
And occupy this harrowing gap, until the day I met you -  
Your toxic kisses, I rely on like some addicting pill.

There may never be another chance to get back what we've lost  
Nor another opportunity for me to get close to you  
All I know is I want to have you around, regardless of cost  
I don't care how much anticipation my restless lips must go through.

Although it will never be clear, and it never will be easy  
There's too much between us to just

# Beautiful You

When I look at you  
I recall summers from long ago  
Walking through meadows  
Reminds me of your golden hair  
Clear waters of a running stream  
stream twinkling in the sun  
Just like your eyes in the moonlight  
Birds singing in the cool mornings  
Sounds like your sweet voice  
Whispering to me words of love  
The smell of flowers  
Fresh breeze cooling my skin In the hot afternoon sun  
Like feeling your warm breath on my neck  
lovers walking arm in arm  
Wondering what the future will bring  
All these things remind me of you  
Beautiful things of long ago  
Remind me of beautiful you

# Broken Dreams

I sometimes wonder when you touch him  
Do you ever think of me  
When you look into his eyes  
Is it me you really see

I could not be there with you now  
And you chose not to wait  
I was willing to sacrifice  
But now it's much too late

Have you forgotten all the memories we shared  
You threw it all away like it didn't mean a thing  
Couldn't you see our future  
And the happiness it could bring

I remember you once told me  
I was the only girl for you  
What happened to that dream  
You know, I shared it too

Everything is broken  
Things are all a mess  
You hurt me so badly  
But yet I love you no less

Does the heart really go on  
Can you ever love again  
Right now it seems so impossible  
I guess only time will tell in the end

# Dreams.....

Dreams that fades away  
I don't really know what to say  
Will i cry and stay  
Or will i let it be and walk away

All day and night i search for the answer  
Why i have to suffer  
Will you tell me later  
All the possible answer so that I'll get it better

Is it really a dream  
Or is it like eating ice cream  
After all the sweetness and cream  
here I am left hanging and wanted to scream

Dreams that fades away  
Now. I know now what to say  
I will no longer cry.....  
But instead, think, pray and say  
Dreams are made to fade away

But i know somebody is made up for me.....

# Emotions At The Door

Leave your emotions at the door (poems)  
So easily you left me in despair  
now you expect me to believe you care  
I know this isn't what you wanna hear  
but I don't want you anymore my dear

you wouldn't hear a word I had to say  
when I begged and pleaded for you to stay  
you didn't see how much I lost  
my sacrifice and what it all cost

now your back again acting all emo  
claiming to miss and love me so  
but honestly everything with you is just a blur  
the only thing I really lost was her

Yes I'm sorry you were a mistake  
everything I had with you was fake  
So I'm going to take my own advice  
and not make the same mistake twice  
I'm sorry that may have hit hard  
but I felt like such a complete retard  
for choosing you over my best friend  
that's the real pain that will never mend

I can still be there for you as a friend  
that you always can depend  
but please leave your emotions at the door  
because nobody here wants them anymore.

# Every Moment

Every moment you don't use  
Is moment you'll regret  
Don't live your life trying to forget  
things you should have done  
Instead don't chose to run

When opportunity is in front of you  
I know all the advise you can use  
Some times do what you have to do  
This is what I mean  
Do you live your life  
Or do you live your dreams

Chances never taken  
Are lives that never change  
Don't wait for someone else's tomorrow  
You'll only have your self to blame

# Fading Love

The love is slowly rotten-  
You love me before  
I know how you honoured me  
I know how you adored me  
I know how you like me  
You take my breath away  
As you hold my body.

As you kiss me and whispers all those sweet words in my ears  
You said you are with me, you will always be there for me  
I have nothing to fear..

Let share our thoughts and fantasies together  
And whatever and what crosses your way  
I'll be the one with a special place in your heart.

I'm so glad that you are there by my side  
I shouted for happiness, and my tears suddenly falls that i can't hide.

But now every sweet word are blown by the hates  
And our love is gone  
I think...to be together forever is not our fate.

Now we both know which mistakes we do  
And our love it's like a waste to be throw!

# For My Love

On the day you were born, to my surprise,  
I saw a miracle with my own two eyes.  
When you took your first breath, I fell in love  
with the most beautiful girl- my gift from above.  
God blessed me on the day he gave you to me.  
I now know a love like none other could be.  
You've brought sunshine to my world & I am proud to say,  
You are such a blessing & I thank God every day!  
I never knew I could love someone this much.  
There's not a piece of my heart that you haven't touched.  
I'm so proud & sometimes I'm amazed by you.  
You're so smart & funny & beautiful too!  
Wherever you are, remember that I'm there too.  
We live in each other- me in you & me in you.  
I hope and pray that all your dreams come true.  
Because mine did on the day that I had you.

# Fragile

Vulnerable is how I feel  
So much to say  
But so scared you will peel  
Each layer of my intimate way

Secrets hidden so deep  
Make me so frail  
Memories of you to keep  
Putting me on trial

Survival I need  
Soul crave to repair  
Love maybe heed  
Thoughts in despair

Fragile are our bond  
Choices too harsh  
Feelings deeply in fond  
Never to be smash

# How Do You?

How are you still with me?  
After all the screaming and anger,  
after everything flies out of my hands?  
Where do you find inside you to  
still love me like the first day?  
Everyday I put you through hell,  
everyday I make you feel what it  
would be like to live a normal life  
without the everyday hassles  
that protrude from my lips.  
It's no wonder you doubt our future  
and no wonder why you feel insecure  
about us taking the next step.  
I still hurt inside from the past,  
at times it eats me up inside and  
all I want to do is disappear.  
It might not have been much to you  
but to me, it was my world.  
I became someone different,  
someone jealous and insecure and  
that's what I've had to feed off on.  
I've lost myself in the process and  
wish to have my happiness back as well  
but it's harder to leave this place.  
Once I walked into this torment,  
the door was shut behind me  
and the key thrown out.  
I've been searching for it ever since.  
I think I'm getting warmer...  
I have to seclude myself for a while,  
think hard and deep, change.  
If I want to be with you,  
then this is how it's going to have to be.  
Please forgive me for all  
the heartaches I've caused you.  
Please forgive me for not putting  
all the trust, faith and confidence in you  
that you need and have continuously asked for.  
Please know that it's not that I don't want to

or that I think you don't deserve it.  
Just picture it like taking a risk  
without anything to lean on  
In the end, I could have it all or  
lose it once and for all.

# Hurt And Pain.

There's much to gain.  
Peace and love.  
It's all the same.  
Confusion and doubt.  
We're not without.  
We weep, we cry.  
We plead, we try.  
We laugh, we smile.  
Only to be hurt  
by one last trial.  
Life is a lesson,  
so learn it well.  
Maybe, one day,  
you can tell it's tale.

# I Loved Her

I loved her...

But I had to let her go...

My heart couldn't hurt any more...

My eyes didn't want to see...

That she wasn't the woman for me...

I let you go and move on...

But know you held my heart like no other...

But I leave knowing there will NEVER be another...

# I Really Want To Be With You

its been a while since i see ur smile,

and i know i can't see it bcoz our distance is  
over a mile,

your lips is like a cherry,

and your the type of girl that i wanna marry,

cause every time i see you,

i always wanted to hold and hug you,

a beautiful girl that always inspire me,

your the only one that i wanted to be,

i wish one day i can touch your face,

cause your face in my mind is the hard to erase,

i know its kinda awkward to do some things like this,

im sorry but its the only thing i think that can make you pleased

# Just Another Avenue.

Every new beginning,  
comes from some beginnings end.

Everytime I am hurt,  
I am born again.

Everytime you closed a door,  
another one was opened.

And everytime you conjured your stories,  
a different word was spoken.

Everytime you look at me,  
my back will be faced to you,

Everytime you want to see me,  
I'll have something else to do.

Every time I re-joined your game,  
You were never playing fair,

And every time I tried to prove,  
How much love I had for you,

You never cared. I'm just another avenue.

# Just Want To Tell You

I just want to tell you  
What I never tell anyone before  
I want you to love me  
I want to live my life with you  
Only the two of us.

I'll tell you my deepest feelings  
And share my secrets with you  
You were always my best friend  
You are my life

I'll love growing old with you  
As long as we were together  
I can see through anything  
As long as you love me

There will always be good times and bad times  
But we will always have happiness  
And memories in our hearts  
All the laughter and joy

I want to fulfill my life  
Not only live my dreams with you  
But to be able, at the end of my life  
Feelings and the love I have for you  
To be able to die in your arms  
And have you hold me eternally  
I just want to tell you  
I will always love you

# Key To My Dreams

Key to my Dreams

There is no key to dreams, but I do have a clue:  
A dream isn't a dream if it's one without you.

Dreams are a time, when you let your thoughts unwind.  
Dreams are when, you're on my mind.  
Dreams are when I think of what you say  
Dreams are dreams, just dreaming the night away...

In dreams you can experience just about everything...  
In dreams you could dream all the things you've never seen.  
But what really are, these things we call dreams?  
Are they facts, imagination, or overflowing banks of endless streams?

In dreams it can all be perfect and good  
But only in real life...only if it could

When reality is so distant, and dreams are, oh so near  
All you have to do is shut your eyes, and lose all of your fears.  
Just sit back, relax and close your eyes,  
You'll see your mind all the things you never realized.

Dreams are not nightmares.  
Dreams are always sweet.  
Dreams are a wonderful present.  
Dreams are a short-lasting treat.

I have found the key to my dreams, through an everlasting clue.  
It is the sweetest of sweetest dreams, because the key is you.

# Life With You

There was a time, I was alone,  
So many people around me,  
But I wanted something more n more.  
Then came a day, when I saw you,  
You became my world's sunshine,  
My world revolved around you.  
It was love,  
Love as I wanted,  
Love as I wished,  
Love as I dreamed  
Now is the time I am full,  
I have the one completing me,  
I have you and,  
That's all I ever wanted to.

# Love Always

As she walked through the church, she passed all the people by, she doesn't say a word and keeps her head held up high.

She goes to the front where he lay, she holds his hand and then looks her mother's way. Her mother knew how much she loved him, everyone did. There love for one another was not something they hid.

She lays her head upon his chest and takes his hand against her breast and whispers to God her own silent prayer to tell him how much she cared.

People tell her not to cry, and that everything would be ok. but she can't seem to forget that today was supposed to have been her wedding day.

# Love For Oluebube

Love for OLUEBUBE

Let build the future we had dream so much about

Unified by passion we can obviously work it out

Nourished by your love I shall bring you happiness

Aware of our flaws we will love with trustfulness

Radiant and graceful our Father blessed the union

Aged together we will work for God's dominion

# Love Is A Wonder

Love is fool  
Love is stupid  
Love is crazy  
Love is blind  
Love is mute

# Love Me Tender

I love the taste  
Of words you feed  
Its a hungry heart  
You knew my need

Sweet as honey  
I loved your flavor  
Engrossed am I  
The words I savor

Like loving elixir  
Tasty potions pour  
I drink with desire  
Your words I adore

Each loving note  
I will never replace  
Heartstrings play  
As words embrace

Love me tender  
With words so true  
Bonding in heart  
As I attune with you

# Love Overpowers All

Love Overpowers All

I've never been this happy  
In, oh, so very long  
I love the feelings I have inside  
They're growing so very strong.

And now I look at you  
While you're looking' at me  
And now I know exactly why  
They say the very best things are free.

That expression on your face  
It means more than you'll ever know  
Sometimes I just need to see you  
Please don't go.

I need you in my life  
Please be there for me  
For you are my life, love, and happiness  
You are my precious key.

Saturday Chikezie Promise

# Miles Away

You are far away, but you own my soul.  
You have stolen my heart,  
Another love I could never know.  
A part of me, you will always be.  
Only your love can set me free.  
Free from the loneliness and the pain.  
Will we meet? Or is it all in vain?  
I pray to my God above.  
Please baby I need your love.

# My Angel

My angel

Are you sliding down rainbows til you hearts delight?

Are you looking down from heaven making sure your family's alright?

Do you fly with wings as white as snow?

Reaching heights only angels can go.

Do you soar among the birds so high?

Waiting for us as each day passes slowly by.

Are you happy there with God's divine love?

Are you flying among the stars above?

Do you watch our family change and grow?

Watching over your brothers and sisters on earth below.

Know that you are missed each and everyday.

My little angel lost to me who I'll get to meet someday.

Stay fast to God's side and let him hold you in his pure light.

Til I can get to heaven and wrap you in my love so tight.

# My Love For You

I live through my dark existence  
only to bask in your beauty  
your eyes that shine like sapphires  
your smile that brightens even my sad existence  
I envy the wind that runs through your hair  
that touches your lips  
I long to touch you  
to hold you in my arms but I cannot  
for your heart belongs to another  
so, I can only love you from afar  
your friendship means more to me  
than anything this world provides  
but like an angel you touched my heart  
in a way that I've never felt before  
cause I've never known what love is until this day  
I know that we are only friends  
but my heart wishes it to be more  
so I will still hope and dream  
that one day I can feel your lips pressed to mine  
to have you hold me in my arms and say, 'My Queen I love you'

# My Ode To Oluebube

I do believe God above  
Created you for me to Love  
He picked you out from all the rest  
As He knows I Love you best

I once had a heart both brave and true  
but now I give it to you  
take care of it as I have done  
now you have two and I have none

If I go to heaven and you're  
not there  
I'll paint your face  
On the golden stairs  
So all the angels there can see  
what you my darling  
Oluebube mean to me

Love always,

# Perfectly Loveable

This girl in my room is remarkably sweet

What she stirs up inside of me begs for more

Everything else was a trace of what this is turning out to be

Her love turns off the light and brushes up against me

Temptation

Foolishly I forget she's not leaving tonight

The frame is filled with fire and the picture of us

Every tear collected presents her to me

Perfectly loveable

Simply us.

Saturday Chikezie Promise

# Quick-Sand

Baby your love is like quick sand  
pulling me down tighter into your arms  
I can't resist your sweet kisses  
I can't escape your loving charms.

You've made my heart your prisoner  
you've got me in your embrace  
with no one else I wanna be  
nor any other place.

The more I fight it  
the deeper in love I fall  
don't try to resist just let go  
I hear my racing heart call.

So I'm letting go and I find  
that I'm over-come with happiness  
for to fall so deeply in love with you  
has erased all of my loneliness.

Saturday Chikezie Promise

# Saying I Do

Saying I do  
Is more than saying I love you  
It goes beyond describing how my love is true  
Because words are not enough to express my love for you.

Saying I do  
Is like saying I am here for you  
That I am ready to see what the future may bring  
Because we are together in everything.

Saying I do  
Is saying I am now complete because of you  
That the pieces of the puzzle called 'my life'  
Becomes a beautiful picture called 'our love'.

And now I am saying 'I DO'  
As I walk down the aisle with you  
This is a lifetime promise that I will hold  
A promise I make until we grow old

# Silent Page

## Silent Page

## Silent Heart

Sad, as it maybe, I had to break my OWN heart,  
Too many nights, I sat there all torn apart  
A dream girl,  
Sitting under its own corrupted auspices sky  
You the poet, in disguise  
Telling white lies about, your love for me  
Saying I'm a boon from the sky....  
A match, a queen, your muse, your everything  
I'm no-good, I admit this once more,  
Your advice, I forever adorn

It's time I follow the crying crows, and praise what is left  
Afraid to listen my rhymes weren't cutting it,  
I release it all!  
Your smiles, words, and worn out shoulders  
I walked away  
Silently-  
I acted on  
Without a word, in a fetal stage I awake  
Tonight you carry a tune for others  
A story of a man who stole my soul of sins  
A poet, I long forever more  
Always, you will own the only sound that still beats inside  
To live alone, in silence, asleep in my own world  
I had to let go,  
-Of him, whose name I whisper in darkness  
The only thing that remains, are the echoes of pouring rain

Too many reasons, writer's block, took full moon  
You are a poet, from another lifetime,  
Down in Mandalay, I can no longer ask you to stay  
Reading everything about my life, yet you can't answer  
Alliterating poems, greeting every dark shadow, normally yours  
Many nights I waited, long for the moment of my OWN return  
Instead,

I dusted myself off like yesterday's verse, yesterdays dirt  
Cobweb, remain on my page  
My pen now sits like a twig  
No motion, since the day I decided I am not worthy of the wait  
You the poet, who walks my way  
I pressured less of me every day  
Like Aspen, a forever winter cold!  
In your eyes, you wonder why,  
I trace the white smoke standing in your place?

To savor your words, once more  
It's too soon to breathe again.

I hope you understand,  
How can I continue to love, when I don't even love myself?

Saturday Chikezie Promise

# Slumber

To My Lord and My Love:

You wanted to stay up a bit  
To write me words of love,  
But slumber got the best of you,  
Descending from above.

Did you know that when you closed your eyes  
And drifted off to sleep,  
That I was there to comfort you  
Within your dreams so deep?

Did you know that I had dreamt of you,  
At that exact same time,  
And savored all that makes you you,  
So thrilled that you are mine?

Could you hear me calling out to you,  
And singing your sweet name,  
As heavenly music of our love  
Serenaded us in our dream?

Did you see my tender smile for you,  
As my eyes beheld the sight,  
Of a woman so wondrous in my life,  
Whom I could love all night?

Did you feel me hold you tenderly,  
And stroke your weathered brow,  
Then kiss your delicious honeyed lips  
As only I know how?

Could you taste exotic luscious fruits,  
I fed you by the fire,  
And fine wine sipped, then finally gorged,  
As we surrendered to love's desire?

My Darling, you didn't miss a thing,  
As you rested in your bed,

For I was there the whole sweet time,  
Amidst reveries in your head.

# So Hard

So hard to say it...  
unable to type,  
GOODBYE  
Made my fingers paralyzed,  
Not to make it hard on you  
Not to make you suffer  
like I do.

I smiled with tears in my eyes  
Sent you a flower  
to stay with you never die  
I walked away thinking  
we are still friends  
But this feeling didn't seem  
right

Something did really  
hurt..deep..so deep inside  
Tears dropped so hard  
not from my eyes  
Tears looked so red  
from my heart I realized  
Try to forget my pains. Go!  
Fly away never look back  
Keep flying don't stop..  
you found your way..  
How can I fly?  
You were my wings  
How can I cry?  
My tears dried up  
When you took away with you  
my feelings..  
Yet..Life goes  
But Nothing Is Ever the Same Again!

# So Many Images Come To My Mind

'Dee okey so many images come to my mind whenever I speak your name;  
It seems without you in my life things have never been the same.  
What happened to those lazy days when I was a child?  
When my life was consumed in your love, and in your smile.  
What happened to all those times when I always looked up to you?  
No matter what happened in my life,  
You could make my gray skies blue.

Dee okey, someday I hear your voice and turn to see your face;  
Yet in my turning... it seems  
The sound has been erased.  
Dee okay, who will I turn to for answers  
When life does not make sense;  
Who will be there to hold me close  
When the pieces just don't fit.

Oh, dee okey, if I could turn back time and once more hear your voice;  
I'd tell you that out of all fathers you would still be my choice.  
Please always know I love you and no one can take your place;  
Years may come and pass-by but your memory will never be erased.  
Today Jesus, as you are listening in your home above;  
Please go and find my father and give him all my love.'

Dee okey whenever your name resounds in my ears, the following meanings  
goes down my memory lane:

O - Open up your heart and let your light shine through.

K - Know yourself and criticize less.

E - Examine your beliefs.

C - Conquer bad habits.

H - Honor your spirit.

I - Investigate the lesson behind every challenge.

OKECHI: the name that means a lot to me is no more chai!

Dee okey, may this sweet chariot that you are in now, swing low and carry you  
home in peace.

# The Pain That Comes From Love

Being in love hurts more than straight up pain  
Hurt is expected from pain, but happens from love.  
Pain comes when unending love is not permitted  
Or when the people in love are separated.

Separation for days, months or years  
That can cause unbearable heartache to anyone  
Love is meant to be cherished by the whole heart  
This feeling is hindered when the two are apart

Dear Lord, She is the love of my life, and heart and soul  
With her, I wish to be bound, hand in hand, hip to hip  
My love overflows in my heart, but pain seeps through the cracks

Unable to hold each other, and show how we truly feel  
Separated by space, by family by life itself  
May you with all your power unite us for a little while  
My tender feeling for my love is unending, lasting an eternity.

My heart is sore from the pain, my body drained by sadness  
My eyes are dry from all the tears that I have shed in silence  
My mind has gone, my thought overtaken by him in all ways  
Her scent, her eyes, her touch and her love, for me is all I can truly think of.

# Three Simple Words

## Three Simple Words

Three words together  
Are all I can find?  
To tell you the way I feel  
And so I say them  
As I have before  
But still  
I want to tell you more

So I give you a kiss  
And hold you tight  
To go with my words so few  
And try to express the way I feel  
In a different way for you

Three words that's all  
No more can I find  
To tell you the way I feel  
And so I say them  
Again, once more  
Forgetting  
I've told you before

Then you give me a kiss  
And look into my eyes  
That's when you tell me too  
These words  
Three words  
We both know will do  
'I LOVE YOU'

To my Darling (.....) I love You forever

# Unpredictable Love

I know every curve of her face I could draw her,  
every spark of brown in her eyes I can envision.  
Everytime she blinks I hurt inside, deeply without him knowing.  
never loved someone so unpredictable  
when will she kiss me,  
hold me,  
breathe of me,  
catch and steal my handsomeness?  
when will she lust for me as I do her?  
But there's more to lust,  
well its not even lust,  
now the only thing there is,  
is love.  
So now as she talks I don't look at her lips but up^,  
her eyes.  
Pure and innocent,  
never deceitful.  
Yet even I could be wrong?  
Once I open up,  
You broke me,  
now who will put me back together but yours?  
and now I see,  
no..I know,  
that even the one you love can hurt.  
Maybe I wasn't perfect to her,  
but she was so perfect to me.  
my princess,  
my love,  
my heart,  
the dove,  
that flew into my heart to show me love.  
and took it away,  
till this day,  
as I reminisce about her unpredictable love

# Walk Away

If you don't want me, just walk away,  
I have more pride than to beg you to stay.  
If you can't be true just move on,  
I'll close my eyes and picture you gone.  
My sunshine has set, now and forever,  
I thought my heart, you wouldn't sever.  
You broke my heart and took a good friend,  
To my hopes this put a quick end.  
You and I a short lived glory,  
Now I will be forever sorry.

# You Can Lil Story

You Can Lil story

You can tell her you love her  
But her heart wont let her love you  
You can tell her, she completes you  
But her soul wont let you in  
You can tell her you miss her  
But her mind will think it misses you  
You can tell her you trust her  
But her trust will never happen...

All she can tell you is...  
show her that you love her,  
-N-you need her,  
-N- you wont leave her.  
She will do her best to trust you,  
-N- let you in.

## Your 2 Blame

As I look, through the cold dark night  
Doubter's are dancing, to the devil's delight  
Confidence has left me  
Now I'm just a body  
Cast in shadow, by the streetlights

I hold my dreams, fragile in my hands  
People are scathing, put me down cos they can  
Refusing to listen  
Refuse to be beaten  
Ambitions that soar, can so easily land

So listen up, or don't listen at all  
If it makes you feel good, it makes you feel tall  
Your living the lie  
Your covering shame  
But one thing's that's bare, is you'll take the blame
