# Beautiful Dusk

Nature follows law of dynamicity  
Boasting for wondrous inexplicable tremendous beauty  
Blue planet firmly rotates at axis on its own  
Allowing to admire the swinging from 'Dusk-to-Dawn'  
Amusing beautiful dusk at its best  
Bulging me with immense super-active zeal n' zest  
O' Nature! My messiah, my bestie  
Help in detaching worries  
Isolate from worldly affairs n' queries

Hold on!

Devil scorching burning ball about to set  
Turned into marvelous combo of Yellow-Orange-and-Red  
Warmth in air gradually freezes down  
Cool breeze hoverin' made me dizzy deep down  
Slowly and slowly  
Cleverly and wittily  
Sunlight grabbing by the darkness  
And birds hastily on venture to their nests  
With pleasant miraculous chatting n' chirping  
Made to wave my hand n' boosting-  
"Come soon innocencies. Will be waiting".  
Though, incredible small creatures  
Possess with appreciative addictive features!

Softness in the air  
Repulsing from worldly sophisticated affairs  
Dying of being shackled by greenery velvety chains  
Love to be your prisoner  
Thy beauty made me faint  
Raise your heads  
Glare the sheath of dazzling stars will made thy glad  
Seems like captured by soul of hound  
Here's presenting..  
Dusk embraces all its beauty beyond!

## C'Mmon, Live Your Life!

The way you want, the way you like  
The way you live happy and delight..  
Life is short, enjoy it full  
Cause time always tease like a bull..  
This hustle-bustle defines your life  
So, try try and just try all to fight..  
O' friend! Ready steady and pull up your socks  
No right for obstacles to always mock..  
Your guards like angels always trust  
That life will NOT make you frust..  
Cause you are strong and determinant for sure  
Be like a stubborn brute to always be pure..  
Though L.I.F.E. is a tough game, but don't be tense  
Cause smartness with hard work will make your life sense! !

# Journey To Fantasy World (A Story-Cum-Poem)

Materialistic world and monotonous day  
Just want to go else and get out from its way  
Might be in reality or in my dream  
It's dark night and moon dispersing high beam  
A dark room having sparkling silvery door  
Can't resist, opened without wasting time anymore

Jingle bells ringing n giant dinosaurs chirping  
Cold breeze blowing n' aunty birds chatting  
Owl messengers in sky with letters in their mouth  
Arrey! Where should I proceed 'West' 'North' or 'South'?  
Giraffe in a red tie and black boots  
Trees commanding direction to their ply and roots  
Newspapers flying at their own in sky  
Yelling 'Buy me Buy me, don't be shy'

Tom n' Jerry running after another  
Jerry chasing Tom n' tables turn for further  
Big square shaped moon mama up in a sky  
Astonished to see during the day  
That silvery door must be the way for 'fantasy life'  
For which I always wish n' wanna deeply dive  
Monkey Donkey Squirrels n' Deers  
Their kids are going when School Bell they hear

Strange sound echoes 'Hold on Baby! Be patient for your coming Baggy'  
I asked with thunder w..wh..who is speaking  
Oh wow! It's a platform where I am standing  
But what kind of baggy is Mr Platform talking  
Standing awhile, my eyes caught those men  
Diving Superman, Batman and Ironman  
Suddenly omniwhere invisible clock echoes at ten  
Now the countdown for the coming baggy began

Hey! Am I touched to the ground now?  
Oh Ghoshh! I am actually flying but how?  
How can I fly, I don't have wings  
Oh! Am caught by the Golden fishes with flying fins  
Never thought that fishes could be a medium for transport

That too of unique feature which I could only think to afford

Ten is my departure, then what about my arrival?

Err..forget about arrival where I actually travel?

No time to think their answers to find

As flattered by the beauty which hypnotized my mind

Oh My god! Red traffic signal is a way ahead

Hey fish stop, else 'Panda Police' will behead

Aah! 'tis fantasy world gradually incurring its unique interesting face

Where brooms, fishes, flying machine & unicorn like vehicles race

Hey fish, why there is much crowd over there?

Unicorn, Dragon fly n' all strange creatures standing there

Getting closer, scene becoming gradually clear

!! 50% SALE!! That must be a market in a fare

Isn't it crazy for they too love shopping?

Seem whole fantasy population arrive with kith n' kin

Happy life with no tension no work

Voahh! Here's too available my favourite perk

While enjoying n' feeling joy in this journey

Suddenly, Joy fades into a taste of emergency

Hey you fish! Left me n' made fall upside down

Could somebody just shot my expressions 'frown'

Calculations started for the 'Mission Rescue'

Wondering now what will be my next EPIC venue

O' my lord! That's fraud n' ground is not so far

The countdown begins for hitting hard

Closed my eyes n' shout hardest to be safe

Opened my eyes and

result with loud cries

Where am I again, realizing lying on bed of my sweet home cave

Arghh! That was just a mere dream

Amazing journey with full of excitement n' adventurous cream

'Dangerous Imagination' could just led me crashed

Oh Jesus! I am on a floor, this led me fall down from my bed..!!!

# L.O.V.E

Many warriors disjoint with fear  
Time, brain n heart all in 5th gear..  
Amongst them, exist a unique warrior  
who is though powerful but sometimes shear..  
Yes! That's LOVE- power to mould us finally a mad  
hobby being playing a tug of war between heart n head..  
Wish, its definition be exact in dictionary  
Why misunderstood it as a 'momentary'?

Is this precious mean for a time-pass?  
That's proved you to be a damn 'worst' class..  
Amend it as a 'love for life'  
Don't play & stake on the edge of knife..  
O' my dear! Love is immortal  
mixed with pain n blissful portal..  
But, life without being a 'true' lover  
is just..a tasteless tea without sugar..! !

# Let's Imagine..

Let's imagine our earth without gravity  
That's not possible without an almighty

Let's imagine our country without democracy  
That's too not possible without any ministry

Let's imagine our ministry without ministers  
That's either not possible without we, the voters

Let's imagine science without physics  
Voaah! not possible without our brilliant myths

Let's imagine our study without exams  
That's ultimately not possible in any cases

Let's freely imagine all those impossible things  
Because...that'll hardly cost anything!

# Pleading To The Lords

Oh my Lord of Water  
loft me along with you  
when one can find nectar in thou  
so that be younger & rescue from hustle  
for the whole life's bustle..

Oh my Lord of mighty of the mightiest-Time  
pity on me as you were never of mine  
O' lord! use your mighty power  
get static to conceal from pain of shower..

Oh my Lord of Land  
wish for helping me hand to hand  
aid to discover a land of peace  
so as to conceal from my inner police..

O my Lord of peaceful Air  
allow me to sway with you  
with hopes of catching many fairs  
and clear pleasing sound of soft breeze within you..

Oh my Lord of Fire  
let's suppose a place of 'Shire'  
where road goes ever on and on  
for I must need your heed  
coz cruel is burning Shire's seeds  
My lord! I beg to pray  
Point me a hope of ray  
to conceal its floras & lovely greeny Shire..

Oh my Lord of ALL CREATURES  
why did you build those wise furnitures?  
that others use their goodness  
just to show their greatness  
why did you build this very life?  
comprised of fragile relations of hive  
if neither do 'life' persists so nor these relations  
coz it only led to pain and complications..

# Teacher

Life is damn a tough game  
Wanna shine as a brightest flame  
Crossing a sea of problems n' risks  
seem impossible n' unimaginable for life to get fixed  
For now, thanks to god  
for sending a mentor n' guide my lord  
No one but a teacher, guru or a guide  
who is a synonym of a word 'Pride'  
You are just like a Magnetic Compass  
who direct me the right way to live bindass

you are my brightest STAR for sure  
My pride my guru, now what can I say more  
For you, 1 word 'Thanks' worth 1000 words  
for acting as a shelter for this aimless bird  
Thanks for sharpening up my life  
Never ever forget you, my teacher, in my whole life..! !

# Wake Up!

Wake up! Better you stand, better you wake  
Better you don't make your life at stake  
Stand as a pillar  
Make your voice be more loud n' clear  
to the one who never listens  
or the one who suppress you for no reasons  
Better you stand, better you wake  
Better you don't make your life at stake

My friend! You the best ever creation  
Never treat yourself as a useless equation  
Always think as 'You are the best! '  
Now who dares to suck your zest  
Problems will always try to swallow  
All in your hands for a better tomorrow  
Never trust anyone more than yourself  
Be confident and faith within yourself  
Better you stand, better you wake  
Better you don't make your life at stake

Emotions are like a black hole  
where easily get sucked in and lose our control  
Then will get ruined for sure  
Best solution-never attach and be secure  
Use your emotions as a strong weapon  
Let them show, we can make something great happen  
People here fond of wearing masks  
Beware to not get influenced in your tasks  
Better you stand, better you wake  
Better you don't make your life at stake

Now take a pledge  
Never make your life a mess  
You the pillar, You the faith  
You the success, now what more I can say  
You are the BEST with upheaving guts  
Just show the world and make their mouth shut! !

# What If?

What if, time got punctured..

What if, our age forgot growing..

What if, could roll back to our childhood time..

What if, things could be explained easily we really mean to..

What if, word 'EXPECTATION' never b invented..

What if, things can be undo by shortcut key ctrl+z..

What if, innocencies could b hidden from demonics..

What if, we could meet our future in advance..

What if, smile would reside on every face for free..

What if, magical wand exist for removing bad stuffs from our mind..

What if, Newton didn't rest under tree or apple never fall on him..

What if, tis' list could ever meet its finish line..

But humans without desires wouldn't be just fine...! !

# Yes! God-Do-Exist

Humans were moulded and life started  
It's that folded mystery that who actually created..  
Many have beliefs with all those conventions  
but all we need our comprehensions..

Let us assume an invisible power  
called as many in one like a hybrid flower..  
Eureka! mystery finally get solved  
and doubts automatically get resolved..  
that whenever a problem engulfs your soul  
then have faith, a miracle waiting for achieving your goal..

Ahaan! again a mystery case for the humans' dangerous mind  
a sole mighty power may exist designated as 'God'  
the strong reason of this mystery behind..  
Some call Jesus while others call Shiva  
also called Masihaa, or designated as Allah..  
All can be replaced with another word 'hope'  
when no hopes for fantasy miraculous rope..  
You are a parent, mentor and an armourer  
Indeed an intimate friend, motivator and an admire..

Motivate n' stand with us for all the time  
for strongly face an obstacle with all our shine..  
I can strongly say that God do exist  
as a Perfect Natural Complicated Artist..! !
