When I am beside you

I feel safe

When I am just near you, you take my breath away

I Love You

I love you
I love everything about you
When you walk by me in the hall

Kiss

Please just give me one kiss
I daydream of me and you
Making kissy faces in the hall
As you walk by me every day
One kiss is all I'm asking for

Thank You
For the greatest kiss
I'll ever get
I Love You

Rumors

Rumors around me
Everybody hates rumors
Especially the ones about you
Rumors should stop
People can be who they want to be
Let rumors die
