A Sonnet To The Life Of Pie

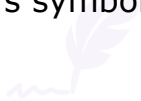

?

Diameter in a circle separate
Circumference into piece of measured pie.
A many tried, not exact innate
Revealed thy mist around unsolved a lie.

Though being an irrational raised alike
To rational without another clue
Unreal accompanied; convert deltas strike
Reliefs some circuit study, vine endue

Begins with three π ending not abound
We use that twenty-two by seven veil
Though figures keep approximate around
Some taste the real edible, food pie fail.

Archimedes, he died for thee, li'l pie
A Greece's symbol knotted science a tie.

SHUBHADIP MONDAL

A Sonnet To Spirit

A soul hath all Thy glory kept for Thee
I wish if one or whole be spent to see
O Mercy, Thine divine endow's with glee
Mundane body bowed down, prays on knee.

Upon a concrete firm belief 'n zeal
Which seems impossible turns a relaxing deal
Eternal heaven brings a summoned peal
Thy bond for deeds awaits to heal.

Will I be freed, have I been forgiven?
Rebirth is not my reward, let's be taken;
That sea's Thy destined place, not to fasten
Anymore, the Father merges His children,

Amidst unbound infinite---goldrays, myth
Evoked through spark, transcended in Goldsmith.
