He has secured rank 11 at the Rising star scholarship programme by the Career launcher & Canara bank HSBC. Somsubhra has been awarded as achiever in the International Bricsmath Maths Competition November Round 2020.

Faded Away

Its natural but hard to accept
People fading away from our lives
Leaving their souls
Free from all their life roles
Well, we do forget after a while
May be thats why we can live... We have to walk towards our destination
Tired after a mile
Still walking... never stopping... never looking back
However saddened by the memories stuffed inside a torn sack
That's life... any moment can be ripped apart by a knife
But never should we lose hope...
Making our minds as strong as a Kevlar rope

Somsubhra De

Different Skies

The sky is always open to us
Open with all its bluishness
Like a game of chess
Where sadness & happiness we equally face.
Even if the sky is dark
We shouldn't lose our hope
Knowing that danger would always lurk
May be it's just a small little jerk,
in our life
May be the next time, you're the one
Who has now become a winner
But, always find the only path
you like among the different skies
Where you can walk & earn respect!
