# Freedom

Whisper softly  
The wind speaks to me  
Such a careless offer  
I want to leave  
Run away  
Hide away  
Inna forest of trees  
Where the waters heal  
And the birds sing  
All I want  
Is to be free.

Save me  
Take me  
Never keep me home  
Freedom  
Its a gift  
Made by nature  
To give us a goal

Call me stupid  
Call me bold  
I want my freedom  
I will always love my home  
But wat I need  
And wat I have  
Never fly the same  
Wats souls reject  
Wats to be known as 'civilized'  
Drives me crazy  
Dark on the inside

Save me  
Take me  
Never keep me home  
Freedom  
It's a gift  
Made by nature  
To give us a goal

I've taste it  
Lived it  
Once upon a time  
But it's not enough  
Call me insane  
Call me jacked  
But I want wat I need  
To fly away in the wind  
To be confident  
And defiant  
All I want is  
Freedom  
All I need is  
Freedom

Save me  
Take me  
Never leave me home  
Freedom  
It's a gift  
Made by nature  
To give us a goal.

# High And Mighty

open up

dont u hide

lifes screwed up

atleast in my eyes

everyones breaking

everyone takings

its ok

i love this world

i love the people

i can feel them

i can see through them

they may

lie steal and cheat

they may

murder hate and take

but wur just people

nothing to care abt

we can survive

just u and i

we r people

but wur one of a kinda  
we dont expect  
anything  
we dont give  
hate  
we still love u people  
but helping u is too late  
ima protector  
ima fighter  
u r my special  
u r my fire  
you and me  
we got a thing  
in this world  
we can dominate  
we can scratch our way to the top  
we will lose  
but we will never give up  
keep clawing hunny  
those people r never gonna stop  
u r a star

and i am the sky

i will always protect u

even if u lose ur shine

ur mine

now lets high

so we can fly

we can dominate.

# Lanii (Little Flower)

little flower

ur petals grow brighter

u shy from the worst

and protected by the best

little flower

dont worry

he'll never disapear

he'll protect u

little flower

hes ur light

hes the sun that shines

u r his to love

but listen little flower

if he goes away

if he shines no more

i hunt him down

little flower

u r sweet

u can love

ur not weak

but little flower

ill kick his ass

ill make him bleed the light

hes ur protector little flower

hes bound to u

he can never leave

# Marissa

Lost in doubt  
No one can find me  
I'm scared helpless and fooled  
Ur kindness is all I seek  
From the depths of heavens love  
You keep me happy  
You keep me alive.

# More Or Less

I can't think at all  
my mind is going blank  
My heart is beating fast  
I think I'm gonna faint

More or less at least I ain't a saint

I hear the voices of silence  
Calling my name  
But I still hold my candle  
To hold down the darkness and keep me safe

More or less, let the darkness fret.

Hold my hands in yours  
To make the hounds of hell snarl  
Let our auras mix  
To make the devil sick  
Let our love expand  
To make the night bright again

More or less, let our love spread.

Have my powers bring u to life  
Let my mind wander through yours all night  
But let my heart soar free into the light  
Now hear the goddess sing her songs  
Then let your soul dance along

More or less, don't be depressed

More or less, more or less, more or less.....

# My Lover

close to you  
i feel ur heart  
i see u smile  
we r soo close  
but to far away in a 1000 miles

marissa ill come for u  
just to see ur face  
u r my angel  
ina dark place

shes soo beautiful  
she shines soo bright  
her colors draw me in  
its too hard to fight

hunny u caught me  
u took my heart away  
u left me breathless  
i dont know what to say

i love this girl  
she is my saint  
just lika poison  
her lips ill kiss to taint

you and i  
we live in our world  
this isnt the dreamland  
this is for real babygirl

# Terrible People

I want run hide and cry  
It's just to much  
I'm sick of u  
And wat u done to me  
U lied to me  
U ruined me  
U stole my life  
I want to run from u  
I need to hide from u  
I'm crying because of u  
I can't stand this  
I'm breaking  
I love u  
I hate u  
God damn it!  
Stop it!  
U tried to control me  
Well watch out  
I'll come for u  
I rip u apart  
I will destroy u! ! !  
Ur life will end  
With pain  
With hate  
I'll make sure of it.

# The Price I Payed Or You

Happiness fills inside  
I am tired from the touch  
It drains my very body  
I am losing so much blood  
I bleed the light which shows my way  
Happiness doesnt come with out a price  
It's a price I payed

I love the this silly feeling  
Even if I'm going crazy  
I'm only doing this for u  
And I'll use my blood to light ur way  
God I'm getting sooo dizzy  
I don't wanna fall  
So I just keep going  
Even if I use it all  
I love u marissa!

# Tragedy

its a stupid tragity..

blood drips from her lips.

i wish i cud have saved her

but her life ended like this

a spell of torture

a spell of pain

a spear thru her heart

and shes dead again

i loved her

i killed her

o god its my fault

now shes peirced my heart

like him, shes was nerdy and badass

but she was more to me than he

she cared

she loved

but i had killed her

my only dove

now he..

he was a subsitute

he was a lie  
i sold my soul to him  
just so he can play her  
and now its all game  
as he hurts me  
and she lies dead  
its all my fault  
i wish i was dead.  
greed is a sinn  
as to lust  
but i stil want them  
i still used them  
wow im screwed
