A Poets Knowledge is too strive to be the best no matter who he or she is, what I love about poetry is you can express your mind fiction and no fiction, you can take your English Version and translate them to Spanish or any other country language by using Google translate, Poetry is a act of everyday life actions taking into account by Placing them on paper, for me poetry is a way to escape everyday life things and interact with everyday people, I'm bipolar and Recieve a check but it doesn't counter act my doing of poetry because I make no money at it so I do poetry for free to express my true feelings about this world and this life we live in.

Mr. Judge was like a helpful teacher more than others it was a class where I had a choice to go ahead do my homework so I wouldn't have to do it at home And I was able to get some of the work that I was failing at from the classes & do that work in his room so I could get direct help from a teacher & not a back of a chalk board or hand booklet....& when we did the best we could he was the only teacher who let us do a christmas party, or anykind holiday party at his house...(All in due respect of the holiday & Good Grades: A Non Drug Party) that was incase you got some people saying you shouldn't do partys at a teacher house....after all anthony judge was a good person & a good teacher And I salute you for that...This Has Been A FizTzle (Tommy) statemeant...this was not taking from anybody & Made a change copy this is from me...

A

A Person Told Me That A Drink Was On A Kitchen Table,
A Relative Gave me time a two to check a table for eating out,
A Cat told a dog not to mess with a mouse,
A Notebook took a pen with a writer that wrote a book,
A Noise big as a elephant noise to smell a regular noise,
A school to teach a fool because we all slow until we learn at school,
A Fake Happy Face to erase the pain,
A Smile Is A Happy Place,
A Horse it craps don't it like life it's a bunch of crap,
A Donkey Looks like a can't say that lol,
A Tree is new life like oxgen we breathe,
A Mother's touch is your mother's bread to your soul,
you recieve as you wish,
A Farther if he's around is the gound you stand,
A Touch of snow is wonderful if you don't recieve to much,
A Family is peaceful around when we all geting along,
A Hospital when they work fast can save people when they don't well,
A Person won't survive the weather.

A Little Soap & Water

Stink like a bear stuck on a tree trunk
Baby you smell like a nasty payment
Wishing you had soap you couldn't buy
Old bread in your Ice box

Ted in your knee trunks
Girl your boyfriend got a stinky job
Better then smoking steaks on a grill
You missing new points smoking a bottle
Your woman is a woman that sleeps all night
Know she stinking off her panties
Co patties where you work
Dancing like you twerk
Nasty manager never taking baths
Plane air pollution smell a bird
Oil got my clothes stinking
Go home FizTzle take a bath
She smells you but she work in air conditional
Clean your clothes smell good
America stinks how about you
Smell pollution like I'm smoking
A Little Soap & Water.

Aback

Drive My car into the ditch because I was so drunk out my mind,
What a sight to see when your so far out of control,
that everything seems to exist its all put on,
thats when you pray out to God get help and Rehab a little,
Aback to the streets that gave me this problem,
everything spinning around me like I was drizy,
the cops arrested e for speeding going 95 in a 60 zone,
everybody know where I come from trust me being drunk ain't fun,
I had to stop at a gas station had to take a leak at the pit stop,
now aback back to the streets to smoke some,
they busting my doors down stoping me from flying high,
old rusty Ice cream truck made me want some ice cream,
It's my facebook page that was lit up with new poems of the day,
everyday she calling my house phone warming up the plug in,
oh God help me to improved this new year,
everybody got Ak 47 runing after me because I'm so famous,
this was my dream is my dream and is my goal,
Aback to my game like this ain't even nothing,
ain't worried about nothing,
I got more spray paint to paint your face with my mark,
baby woman of mine I'm about to cum to your house,
Aback I'm about to aback going to aback,
this is a rough ride cause everybody sick without a flu shot,
excuse me I been here for years where you been?

Abandon

Emotional Is the Description to her Conclusion on her Controversy,
Heartbroken Because she Abandon two kids In Car After She Forgot,
One Hundred Degreds And The Sun Points In That Direction Ohhhhh,
Miscellaneous was the gift the police office gave to help out then kids was out,
I Forgot And Abandon My girlfriend at the mall by leaving in the car,
she called head boiling was totaly mad at me so I had to return after paying bills,

We Abandon these times like we abandon our lives stars in the sky they are mad,

Coordinate these times pick back up your girlfriend apologize for abandoning them,

Appreciate all the small things don't Be Disappointed in the bigger things,
Remember That The Poetry King Tommy Ray Laster Aka FizTzle Can Always Do His Thing,

She Dress in a Black Top shirt With Black Jeans She A Black Girl And You Forgot Her,

By Abandon her at a mall instead of taking her home and striping her down the right way,

Dishoner to have a Disillusion of Abandoning with everybody everyone want's you to find them,

Her Feminine side said I'm going stop from curseing you out,

What if being abandoning is a hoax use to get money from a game show and we all play on it,

Her Hormone said slap him in the face for being crazy a stupid fool,

This was never a dream that we wake up and we would all be abandon.

Again Drowning

It's raining out & I'm standing out,
thinking It's been years now,
I know it ain't no turning It around,
because she don't feel me like I feel her,
again drowning trying to catch my breath,
standing in the rain no stress release,
everything's a peach if you see it,
gold or It's silver,
don't turn around till she's with you,
this is the way it's suppose to be,
dreaming of a dream,
nobody can catch you,
because you in between,
again drowning drowning again,
rain beats heavy now on your head,
you got a umbrella with rips in it,
you can't believe it,
she's not into you,
again drowning baby,
been so long so many years,
I can't stand it but live on.

All My Lonely Journeys

use to drink all the time,
torn up from sky to ground,
lock up two or three times ago,
you don't know how it is to slip,
I have once failed under,
taking pain pills at christmas,
to ease my mistakes from hurting her,
let me tell you now,
washing all these dishes,
no one around to kiss me,
in all my lonely journeys,
and people looking at me funny,
once scared to go to church,
I didn't want to be judge,
for talking to god the king,
now I don't care what you all,
think about me,
you can't make perfect,
from a piece of string,
so emotional Tommy,
I always cared for you girl,
I did realize,
you never felt the same,
now high I need to eat,
siting in a chair,
can't even sleep,
in all my lonely journeys,
use to dream them deja vu dreams,
now I dream no dreams,
hit the club that was one time ago,
my stripper lust center,
now at the movies speed date tonight,
thinking about busting her cherry,
wrong way of thinking while we dating,
oh god my mind done messed up alot,
of those good never get again things.

Almost Got You By Me

It Took Year's
Of Talking As Friends
And Studying To Know
What You Like
Or How You Like It.
To Learn Your
Favorite Movies
Songs
And Even Your
Special Restaurants
I Have To
Take Time To
Figure You Out.
Almost By Now
We Are Closer
Then Ever
But Without
Doing For You
On Holidays
Would Be Wrong
Almost Got You By Me.

And We Kissing Through It

In a depression recession tribulation
Me & her hurting for money
And we kissing through It
Watching money watch
She said do you think
We will survive
I say baby it's up to god
I'm just a maker of this relationship
And we kissing through It
Don't hurt baby don't cry
Buy you a napkin whip your tears away
Tomorrow that new day
Why oh do they think
That we can survive
The way government hurt us
People joke now I got her
This is my planet we run things
Mine & her airplane
Got five G's so fast see
And we kissing through It
Look how happy we are.

Antique

Put me on the wall like she always do,
never been dusted off know she cheatin too,
beenin on the wall see everything like mini doll,
can't believe she keep blowing me off,
nothing but a antique put on a wall,
hear every sound see every fall,
see you cryin can't stand that you doing me wrong,
but its ok I forgive every winter,
when you tryin to auction me off,
can't stand that wall so dusted up there,
if I fall I'm going to break nobody cares,
Imagine me as a antique,
know it bugs you because it bugs me,
like bugs cause the glass has holes,
feeling so lonely up on a board walkway,
see you tommorrow girl in the same place,
I know she got gace but I don't see it,
when she cook bacon I have to smell it,
antique antique antique,
now lookin for change don't know if I find it,
nothing but a antique seeing & hearing everything.

Apple Pie Sweet Stuff

Sweet love like honey-bunch-oaks,
rub me down like mummylocks,
the core so round and deep,
juice be the seeds,
candy apple-red-bone,
maybe that's why she stay,
cause that woman love sweet-talk,
never thought I would see the day,
that my arms would be hugging,
back to the sweet stuff,
I'm not trying to wife her,
cause she wouldn't man me,
that apple pie good as a pecan pie,
wears glasses to protect from stream,
cooking smoke into the flame,
call her red-bone-honeyoaks,
seduction oh baby oh my,
digging into the core of fire,
like that apple won't be-tomorrow,
what a pie if you had one,
my apple pie sweet stuff.

Astronaut

Eyes can't Imagine whats there,
deep in that open space,

now looking to mars,
If aliens exist what would we do? ,
keep fooling around(might not be a world) ,
cause we destroying minds to foolishness,
I want to be a astronaut,
travel a million miles away,
so then they can't find me,
pluto look like pluto on show,
second world like second mention,
so my new job makes good money,
to support her & children,
on my could toes(steping on the moon) ,
it is peaceful lookin down to earth,
stars gather like astro,
we can always take it slow,
like a astronaut i'm flying,
feel free in my mind.

she been in my diary this whole time and yet havn't come to life,
Dictionary taught me so much stuff like how to sound off words,
these displays I use are so colorful it will catch you off gaurd,
never ever use my eraser because I'm that good,
they making a game off of my poetry watch it God said so,
when I do get the money one day hardcover books you get,
I need no how to link on no internet screen to tell me how to create,

Baby Boo

It Goes This Way & That
Baby Boo Smiles
Went Down Some Many Roads
Not To Collect Miles
You Wonder What Happen That Day
Our Heart Split
It Wasn't Surpost To happen
Now People Who Judge
Are Siting Back Laughing
You Did Basketball
Had A Name
Just Wasn't Enough
To Carry Your Name To 2010
Let's Stop Pretending
I See Your Eyes
Fixed On Me
To Tell You The Truth
We Didn't Want To
Hurt Like This
Baby Boo Let's Find Are Peace
And Come Back To Realness.

Back Forever

Postmarked from my heart and soul,

I shared my time playing hip hop women,

Disappeared by a magic which was shared,

Unopened my heart like I was missing something,

New merchandise now they want me on Tv now,

People say where is Tommy?

I exchanged no refunds cause I got to eat,

I'm Back Forever Don't poke your lips out,

I use to be trackable now they shutting me down,

New systems they putting me into so they get their money,

I'm A part of a brunch of accessories that they buy,

So everyday I'm stress trying to make new poetry for them,

Reserve the right to refuse any return,

I become put back in my original condition when it comes to women,

Contact me I'll be your poetry friend so we can change the world,

I'm wanted by the world by the fans so the cops can't touch me,

more money makes new songs,

I'm Back Forever the new poem,

I pay my dews where is the strong ladys,

when I look at these high costing book making companys I smell stinking feet,

I am who I am some make love after dark,
chapter 1 I made It so whats the talk about,

Back Forever.

Barrel Of A Gun

Click snap bang boom,
range gun shot in zoom lens,
don't step on my toes,
I'll step on your toes too,
you at the barrel of a gun I say boom,
love your looks so,
I shot your ex to get to you,
remember when you spoke,
it was music to my ears,
your dad came in,
lock his jock in his gun,
so I took my barrel,
pointed it to his forehead,
like blood that's blood red,
barrel of a gun like your ex,
small small head,
she spoke to me,
told me to have love with my hand,
all bets off no kiss & tell stand,
watch my hand stance jack my hand,
caught me in rated R moment,
barrel of a gun i shoot to kill,
so to her ex stand still so i target you,
youtube has your answers too,
ms. China a'china,
caught your woman on x factory,
think Ill bring love after you,
inside barrel of a gun,
catch me catch me run,
ex on x factory shot him x factory,
boom-snap-click-bang,
everybody zoom lens range on Interstate,
because I care less of what you think,
see blood red lines on airport board,
cause blood is what you see when I shoot at you.

Before I Make Love To Her Mother

We Move our bodies around like snakes in the bed,
I paid and she paid our bills like it's christmas time,
Before I make love to her mother I spend more time with a striper,
It's a ghost gym and we spending time in it like it's ghost play,
I play with her hole like it's a wedding cake happy marriage day,
the bed all wet from her tight wet thigh's and it's time she spend the night,
met her mom and dad they was straight like apple juice,
we booming in the car speakers so loud kissing in the backseat,
sometimes I feel like we wasteing time geting no where,
this time it's different we hanging chilling and grooveing,
Say what you like and will pop some popcorn together,
she can cook real good no lie I can't cook at all place be burnt down,
laying on the sofa we touching like it's a touch party,
All the time I think about Is you oh baby,
still got alot of pain of when we fell apart last summer dang,
Can I see you later I beat them tough spots clean out them spider webs,
Turn back the hands of time to start all over again Poetry statemeant,
Me and her loveing doveing on the front sofa so my friends can see,
my brother takes deebz on that woman because she so hot,
Before I make love to her mother we be at the mall looking for a meal,

Betrayed

Use to knew me ok,
now I'm stepping into,
enemy lines not friends anymore,
have you ever seen people,
act like they don't know you,
cause they think their better,
all money can't buy love,
and love can't buy money,
you standing alone,
cause when we was friends,
everyone did me wrong,
here I am eating,
your homeless asking me,
but it's ok,
I don't act like I'm better,
I'll share my food with you,
god didn't make me a judge,
waking up I do the same,
everybody don't live betrade,
betrade-betrade-betrade,
memorize me please.

Blue Poetry Christmas Without You

Egg nogg on the table for just one
Christmas tree lighted only one to see it
Bought all these presents no one to open them
Halls empty with christmas lights all hung
Missing your hand when we use to touch
This christmas is so empty inside to me
Got my family but no woman beside me
Drinking hot coca by the snow out front
All by myself thinking if rain deer could really fly
Santa claus on the roof top
Its lonely wearing this santa claus hat
All by myself all over again
I have a blue poetry christmas without you
It won't be the true real christmas
Missing you looking at presents under the tree
Poetry christmas while talking with family
No you by my side so I hide my feelings
Christmas tree so lighted with christmas lights
Missing you inside my heart
Santa claus asked me what do you want for christmas
To only be next to her drinking coca when christmas shows are on
Under the mistletoe we kissing together
Ding ding ding dong ding ding dong
I will have a blue poetry christmas without you.

Clubs 4h

I love agriculture can't you see the farm dirt on my jeans,
Got all kinds of animals from deer to birds plus Fish,
Camping out here in the midnight woods hope to see bigfoot,
I'm citizenship of america don't forget that if you come ask,
took classes back in two thousand ten that was some years ago,
found a 4H clover under the missile toe,
been in all kinds of clubs some people couldn't even go to,
Community always please me for my poetry oh greatness,
I save on my energy light bulbs like I'm at a conservation,
brunch of exhibits for you to visit so you can come visit me,
washing my hands of all the old mess that everybody done gave me,
people bust their own heads to see my own items,
your health is going down like a tiger thats been stab by our pain,
Girl your heart so nice I could married you twice,
I'm your leadership like your leadership is gone,
learning how to do my poetry over again because I had writers block,
I got poetry mentors like the 4H clubs mentors,
eat my vegetables and fruits so I can get my nutrition,
grow some plants like they grow some plants,
me and the clubs 4H working on projects,
do you a service like I do a service off a tow truck,
skills cause I been to school for ten years,
teacher's teaching me how to write on contact,
Technology oh what they teach the stuff I learn and can do,
I was volunteering to be the club 4H mascot,
I teach the youth something new all the time in my poetry.

Conquerors Expansion

campaign to go to exotic lands,
make guns in archery range,
blacksmith making swords,
cutting boards in lumber camp,
if their is a fight-game on,
buy out the whole market,
mining cause gold my thing,
grind food for you at the mill,
war-war-war,
so I set up the barracks,
I'm the aztecs of this world,
experience the real world,
no new heroes,
cause I'm one,
eleven new units for you,
civilizations can't compare to me,
I'm zeus to the god,
make a evolution with me,
from the dark age,
to the imperial age,
so you flourishing by me.

Cook Hornet Football

Standing above it all,
down looking onto the field,
there goes one number to next,
we in the lead knocking you out the park,
touch down-touch down we yelling,
makes noise with our feet,
running across the field to beat you,
never die we progress,
last year double A,
this year triple,
you all ain't stopping our style,
cause we hill toppers,
big dreamers in cook county,
go out to field bi smiles,
it can't be that we,
don't know we are leaders,
leaders of a band,
hearing cheerleaders cheer,
rocking with marching band,
score from ten to forty-in minutes,
so party cook hornet football.

Tommy Laster

Costumes Halloween

I was a alien flying in a spaceship over you,
who you think was that fireman? ,
that put that fire out for you? ,
even I went back to the past and turn into,
my baby figure happy new years day everyone,
then joker came because he recognize me as Batman,
It was a clown show at the circus show under the big top,
Cowboy I'm stealing your cowgirl better get your gun out,
had to see my doctor with the broken health care system,
Dracula came and suck all my blood out,
then I became this farmer farming all this land full of corn,
The angel drop from heaven and said to me boy stop that,
Football player's want to be a poetry artist like me,
Oh no ghost you can't scare me I'm already dead,
Hobo do you want money to live or you want money for beer,
I'll be your biggest king siting in the white house,
tell my nurse she can come and give me some loveing,
come on pirate tom don't steal my riches that's all I have,
pretty princess do you want to twerk it for me wear a thong,
Robin hood old tree house done fell out of the tree boom bang,

if we don't stop the wars we all dead looking like skeletons
I got me a pet train in the wild woods he is called a werewolf,
she been so bad to me so her named is called a big witch,
wonder woman she so great in bed she my new woman,
we all turn into costumes halloween so we are zombie.

Crush

Unstoppable love I have for you,
created a building with my woman's,
name inside on the walls,
I have had a crush on you for ages,
and you still don't see the clear image,
of a heart fix on you,
tell me this baby,
do you think it was understandable easy,
most of the time I was a little lazy,
even had a nickname drizzle,
and because my crush on you was strong,
you was always in heat for a new lesson,
tell me your season when you think,
of me daily,
it's like I'm going fishing,
because I got to have you nightly,
drunk coffee off this end table,
so I can stay up late at night,
to be hyper active,
my crush extends me and you,
because I can see so true,
that I always had a crush on you.

Cry Away When Eveythings Falling

It's a stressfull movement in our lives when we can't even touch the rainbow,
dreams lost and nobody to call on this is life and I know we in pictures of old,
everybody running when we should be saveing the planet from our monsters,
I been drinking trying to get rid of my inner enemys don't you be surprize,
If I had to cry away when everythings falling and their is no smoke,
mom went to the hospital everythings so dark for me and now I believe,
that I have to hide away to share my feelings for this world so they don't chase
me,

Going deeper to find a way out the jungle crossing the land like there is tigers,
I love everybody but they don't love me in return maybe we missing a rose,
Got left some land but everybody trying to take it geting screwed by many,
I lost my mind like this is a circus with tight ropes hitting me in the face,
use to believe in some unheard things like area 51 and what they have there,
Found peace with a stranger who I never knew took him feed him,
God gave me peace but the devil was trying to steal it from me,
shut up tommy don't give up the devil government plan barcode,
I had hats where them around my forehead so nobody can system me,
seems like I cry away when everythings falling and for good reason,
vet the animals cause the system trying to kill the animals too,
walk around ages ago and the streets was safe but now no,
you will get shot for just walking to the store then the grave cost to much,
pray while they plant your soul away because they don't care.

Didn'T Have A Watch

Nine pm I'm off my medicine again man what trap I'm In,
tables turning and life keep's on spinning around me,
what about the life we was suppose to live in,
no doubt that this was a nightmare in progress,
everybody's picking on me so they judging me,
didn't have a watch to tell time this time baby,
missing my fans just wanna make my fans clap again,
this was a mistake to carry all this weight on my shoulder,
like I'm in prison and nobody winning,
I know this was never suppose to end this way,
time for no war but peace today,
give my heart to everyone like I always had,
is this the way we end off with nuclear bombs blowing? ,
didn't have a watch we making things bad then what they are,
one caring heart put under the dust because nobody believed in him,
we are misplaced trying to find our way through this storm we cannot face,
11 pm I'm on my medicine trying to tell my story,
but every ghost from the dead has a line in this story,
Watch the storm clouds hit us all at once and we still unbeliever's,
bet they didn't know the truth about gods promise it's real,
through my eyes we fallen trying to count the times we party together,
instead of living the right way and believing in the afterlife,
that's how I come to realize I didn't have a watch.

Do The Easter Bunny Too Funny Hop

Bunny shakes his head
like he's whipping hair back and forth
puts his right foot in
hops on one about
he does the bunny spin game
while putting humpy dumpy on the wall
thats what a bunnys all about tweet tweet
now eats a carrot loves green food
easter bunny teach us all how to eat good
puts you inside the bunny hole
with holding a corkscrew
bunny puts his left foot in
and shakes it all about
then he loves to cry and tear
while eating onion rings from a garden
piggly the pig said's I'm gonna get rabbit
fluffy bunny ears long as ears of corn
long tail of easter bunny to have fun
easter bunny hops hops and hops
do the easter bunny too funny hop
while drinking orange juice to keep spirits up.

Don'T Acknowledge My Smile

Some wonder why I got a contagious smile I'm so happy,
because I been on this rocky ridge road nothing comes easy,
they want to make my life hell but I made my life heaven,
I'm happy so they hateing on me trying to slow down progress,
Don't acknowledge my smile but God stilll does he sees me happy,
this world ain't worth crying over just try saveing over all the people,
if they would understand that the clock is ticking it's going tock tock tock,
when it's over even the doctor can't save you from the rumble of the rocks,
erupt of a nation fire and brimstone we are destroying ourselves,
why try to explain because nobody listens,
like a mack truck coming to hit me comes I'm over weight they calling me fat so,

tonight when the light goes out all thats left is darkness turn the light back on,
Don't acknowledge my smile I'm still happy can't be beat with God By me,
people call you names but words don't hurt,
stones break bones but stones can't never call death,
this earth still tick tocking what about the life you was giving,
something to think about while you throw your life away watching Tv.

Don'T Get Caught Up

All my energy dried up,
like a dead Panasonic battery,
what about that young boy with dreams,
maybe girl he's gone,
you don't want to be me,
always people hateing main flow,
go to city hall become powerfull,
but what's power without her,
understand me a better world,
don't misplace her she's your love life,
new game don't quit,
everybody always getting caught up,
FizTzle just don't get caught up,
so sleepy of some mess,
that's the nice way of saying it,
but once more again feel me,
don't tell on me yes she stripping,
all I got to say follow me,

caught up don't get,
get caught up don't.

Drink The Bottle

I have the Ability to adjust to my action,
believe me I balance the barometer of my bargain,
capable to see the calendar and open the can opener,
my decision to defeat the defiance of dehydrate,
easter comes theres a echo in the bottle economy,
fashion out here far reaching the fatal father,
gash the gallbladder at the gas station,
heaven opening the bottle hallucination,
ignite the fire impound the car independent mind,
took the jewel ate the jalapeno jab at the jet airplane,
lady she lags in the lagoon,
magnitude done malfunction in the mall,
their negative niece with a nightgown went numeral,
Offer them the bottle like a snake from the east,
Offshore Accounts Offshore Accounts Offshore Accounts,
Pesticide their permission like penicillin,
Quarantine the queue line like quick quiet,
they raid the rector like it was raid roach poison,
the salamander saleswomen sold me a bad drink kobrink,
a thousand though thirty those thrash thread,
Drink the bottle.

Even Though I Was Just A Little

Growing up I remember some bad times,
even though I was just a little boy,
these times was like a memory that would slap you in the neck,
I know people didn't tell you that you was beatiful,
escape these times looking into the stars,
these things don't last forever tonight was gone tomarrow starts a new,
why would you cry friend or girl things can only improve to hit a high note,
tears fill a ocean and the rivers so let them flow not to slow,
high mountain tops are our high points in this life,
continue to bless those that havn't heard,
we play hard when we smaller at a playground,
sitting high on his throne God Is looking down on us all,
even though I was just a little boy,
everybody knows what's up,
we here to try and make things peaceful but sometimes we decieve us,
everything a kitchen with hot plates like a Hot Tub,
we are burn by the sun that shines to brighter,
I hold you up like there's Is no tomarrow,
I grew up with my woman we kissing in bed,
Improve your life skills to touch the ground even harder,
this is the brightest star in the sky when I see her smile,
we all go harder to change this world make a peaceful planet,
It don't turn out like the way we want it to all the time,
bumps in the road make it hard to crosss,
I remember when I was bicycle riding,
Even though I was just a little boy,
ocean crashing into the bridge when it overflowed,
now pray for new jesery and every other nation that had a ocean problem,
Go Green like we planting corn fields to help the earth grow,
even though I was just a little boy.

Eyes Deceitful Intro

Our body's touching hands on each other like sex toys,
we freaky lick sticky hanky panky under the covers of love,
Like we commenting a sin with our eyes being deceitful,
she got me up all night singing all these love songs,
I love this these things can't change,
let me talk low in your ear nice things obsessed by the times,
hats off pour the liquor up I'm back at this love poetry thing,
we can get this whip cream out in this vip room,
eyes deceitful we off this molly.

Filing Purchase Orders

Filing out this form so I purchase orders,
they say put down your first and last name,
please apply your company name so we can send it,
freezing in the after effects of spending money for purchasing items for this
store,
hard work standing in front of a crew buying their outfit like fast food,
employee to be the best filing purchase orders,
what's your number they ask like it's a jail bar jailed,
then your address so we know where you live,
have you heard of ever getting free stuff for a store business,
it should be because you got to pay taxes,
elevator to the top floor 25 ft high look at how high up I am Lol,
Filing purchase orders like I'm in a parade full of people looking back,
hey Mario did I step in your Mario Kart race too soon,
we know the company got to purchase the labeling for the game,
like stealing my poetry stuff all dang day,
cause I'm in this race going slow while I'm leaning,
step the company up and we all green through dollars,
are you scared of the purchase orders you have to do by filing,
these papers' filing for purchase orders is like filing for divorce,
just bought a new space ship so I can take you to Pluto,
filing Purchase orders just to buy new things like a honky tonker truck,
are you breathing I have to file purchase orders for that too,
blow the fire alarm like filing for new fire alarms.

Find A Dinosaur

Dig a hole 18 inches deep looking for dino bones,
t-rex chasing me in the past 800 B.c. looking for a get away,
man what a dream when I'm dreaming when I'm laying,
sharp teeth sharp fingernails sharp toenails reminds me of a giant,
Finding a dinosaur like finding a snowman in the snow,
Dance the T-Rex dance like it's 900 B.c. late in the past,
keep on chasing me while I drown trying to escape,
Pronounced dead while the T-rex rip into my sides,
hes eating me eating me out,
Find a dinosaur digging deep,
Dinosaur so big and tall find one before they find us,
1800 B.c. back in the past living like cave man,
lights goes out because of super storm,
light a fire that's our light,
no lighter because there are no lighter fluid in the past,
Find a dinosaur egg then the dinosaur comes finds us,
no fire through the smoke of the unclear eyes of a mother,
she'll be looking for kid egg while we dig for dino bones,
no luck out here in this hot heated dry land,
find a dinosaur no dino bones but I keep on digging.

Fitzle World Poetry

Yet here is another series,
thought I was done,
but I keep coming back,
can I control your mind,
with another mind blowing dream,
hit this hit with a hit maker,
dream dreams tonight,
nobody dogging on me,
cause they can't tell me,
haven't done poetry for years,
but still great as you,
intro-outro-short funny skits,
people say I done change alot,
just tell them I have grown,
It takes more then you know,
the pen-paper-american dreams,
old school age of empires,
if I was me,
I would stop,
but I can't cause it comes in,
then I have to write it.

Girl Come Through Me

I Ain't Paranoid to tell you I love you and all that compassionate stuff,
Giggle at the sound of my voice because It's individual how we talk,
lopsided at the side of my bed mercury in our system thats how we work,
polyester sheets pulling on her ponytail while she rides,
it's rational what both of us is thinking at this point in time,
we quiver because we got a lot of quizzes to take on being in control,
she recreational she recruited me out of all the men,
Girl come through me scatch me on the sabbath,
They put me back in the tabloid to talk about me again,
unaffected she came up to me unannounced,
Bought her a vase of flowers it vanish,
Waken walking with a wagon full of gifts going to someone,
Xylophone was playing for her all her soul and her mind,
them yankees was trying to take her from me,
we got the same zodiac sign zip code even bought her a zebra,
All around we some amateurs looking to be out here to change that,
I'm a barbarian when it comes to love or chinese play hole chopsticks,
I got a diamond dictionary love to read and corect spell out of.

Headed To This Theme Park With My Girl

She Dress so nice she so jolly her name must be molly,
we headed to this theme park to ride some fantastic rides,
so enjoyable we hop onto the ferris wheel and spin around,
RollerCoaster riding a good time so freaking nasty tasteing,
everytime I tilt a whirl I dream I'm drizy watching a circus show,
now we take It slow rideing the train to see animals,
my girl knows she good knows she so hot and live action,
Headed to this theme park with my girl,
it's so hot from the wreather trying to cool down with a cold drink,
RollerCoaster Tycoon 3 was the best game,
now we missing Rollercoaster tycoon 4 because they went Bankrupt,
Oh Please tell me why tell me why tell me why oh please tell why,
This theme park went abandon and it hurts me,
can't take my lady there no more to fulfill her fantasy,
Me And My Girl Rode Twisted Typhoon at Wild Adventures,
Listen to T-Pain In My earphones while I walk down theme park sidewalk,
All this talk about us going to the water park,
she just wants to be naked in her water park clothes,
close your eyes girl I brought you some things shoping in this theme park,
shoping is how a theme park gets it's money to help keep the rides going,
from dawn to dusk we out here rideing rides drinking drinks haveing fun.

Homebound

Tell the world I'm Homebound,
been homebound since my age now,
doing double the page now,
trying to get by in life now,
mom and dad say I'm homebound,
homebound by my friends when there around,
ain't it funny no news press let,
so much to get off my chest,
they bugging me about a silver vest,
like a hip hop best,
now to that test I done many test,
why they couldn't confest merry merry mess,
Go my way I been tried cause christmas coming up,
joy in the back of a blue cup,
Been homebound when no one else could see now,
play with toys when I was a kid,
Man how much I done grown now,
they say I couldn't size my shoes with many stories,
in the years I known I have made plenty stories,
no coke in my car because I don't believe in that,
said I had many stars but I couldn't see that,
While the news never wanted to show my poetry face,
I have been given you my poetry grace,
now I feel like a rockstar,
too many keys to one dang speed car,
police chase me like I'm a crack star,
now believe in me I ain't so I act like a angel to a God,
step high off my ladder like I falling from the sky,
cause the roof was so high felt like a bird when I fly,
Best believe I'm Homebound been shockcoller and homefound.

Illuminati Poetry

They tell you what to write and it better be what they say,
one eye watches everything watches over the world,
the dollar symbol play no game one day its all gone,
watch what I say they could kill illuminati poetry,
this top of the world crap you only get paid if you keep it a secret,
I want more money it's not enough to keep me silent,
then flying high like I created it because i was a minute poetry puppet,
those who get paid to be the illuminati masters puppet,
it was beast code because thats what the beast master wants to hear,
fluck it I'm not that person anymore christ code,
the one eye wants you to follow so you can follow the into the flame,
this is war fare while I have to walk behind the illuminati while they kill my
brothers,
this is what they talk about while they wait on the world to end,
this is the governments biggest secret.

In Love With A Pretty Girl

Roses so soft when you touch them almost like kissing her soft lips,
she pretty but I bet you miss It,
when we kiss we go hide in the bed,
we cuddle with teddy bear ted,
I used cotton swabs to clean out my ears to hear her sweet voice,
oh my my my she got a body with thick curves,
she gonna be my candle I'll be her holder because her smile lights the way,
oh baby till this day,
her smell good smell all the way good,
she getting naked while we are dancing,
hugging up close tugging under covers,
thats the way style goes baby making,
we cuddle under the fan cause its hot with the heater on,
she's a superstar at home on her throne,
playing with my toes I'm playing with her toes,
rub me down cause I'm so numb,
rub her down cause her back hurt,
maybe its about time she told me,
crying tears cause her family member died,
special to me so I hold her by my side,
she whispered in my ear,
you funny to me boyfriend what a jokester,
Dinner on the table eating noodle mouth to mouth,
sexy with her body curving like playing lonely lovely music,
she ain't home with her girlfriend she at home with me,
as she spoke to me,
baby baby please oh baby baby please,
lol I have so much fun playing tommy drum,
Not Scared We Making Love under the stairs,
on the kitchen table and on the living sofia,
while we yelling harder push the plugin to the heater in harder she said,
laughing at myself riding in the car with wifey,
she told her family I was dateing her,
In Love with a pretty girl.

It Was As Simple As That

Cry out hold my hand it can only get better,
your my baby woman and I'm your man,
seek into your heart and soon you will find,
that your heart is my heart for a better life,
It was as simple as that but you didn't want that simple life,
my soul and your soul now is broken,
sweet times don't always last but we try,
to be around kissing and hugging plus tugging,
we was so good sweet loving couple that everyone seen,
don't hide from true love you won't never get it again,
whos bad when we was together we was the badest looking couple,
the stars in the sky couldn't match up to us no they couldn't,
big cars big trucks come on we riding good baby,
enough to steal your soul for good instead of bad,
we missing we kissing we hugging we tugging,
president obama our president so lets show him we can change,
america rise above america rise above,
don't you miss it baby no longer madness we the truth to this confusion,
they would have you believe that we ain't good together,
heartbreak into stonebreak into lovebreak this is madness,
so we me and her come above all of this sadness and depression,
to realize who we really are in this world earth and planet,
dinner time with my baby it was as simple as that,
we had to go and make it unsimple.

Jackpot Pt.1

Penny's turns Into Quarter's,

Quarter's Turns Into Dollar's,

I broke my lost collar to make no million's,

Trying to save my life like a lifesaver from this company,

while they spinning my head around with this madness,

Jackpot came close but no score and now they teaching me,

to be a no body with a score of looseing but I done lost,

Game time they making fun of me them and of us,

I'm tired of being second best having to sit around,

even P clearing house did me wrong so beef I have with them,

so it doesn't really matter I give it to God,

You better be standing here with a hot rod,

I been the biggest comedy person of all time just check out my ryhme,

If that don't get you my time will,

because evrybody believes I'm standing still,

made a story hot even when it wasn't,

spend hundreds when it was dozens,

doves fly I brought a whole flock of them,

I believe in high spirit's maybe that's why I have low spirit's,

feeling like I'm looseing touch with everything,

so my poetry ain't even the same anymore,
because they thought I had it in me I keep going,
Jackpot is just entertainment went wrong,
the picture in the room is wrong so I should,
just change it back then and get back on track,
people say that would be so wrack like me on crack,
wouldn't happen the best way I guest,
like me wearing a vest,
Didn't really talk about the Gameing jackpots did I.

Let's Go Back To The Way We Was

Doing yoga eating the yogurt she made her body got on her yellow skirt,
I see her zany behind she got a zeal that her body zigzags I zinc up to kiss,
I'm writing the wrong but I wrinkle the wriggle wreckage the wobble,
vulnerable the voyage that me and her the vietnamese women travel through,
uppercase my words so common me and she ride upstream that river,
I twirl the typhoon while she wears her turtleneck dress through the town,
swivel the car swollen your face swoop down stole your cash and run,
Do you have a rubber you gonna have to rout it back in place,
thats a quotation to your question so keep on asking u might get a answer,
her purse was full of money I was like a python to all that cash flow,
Oxygen was deeper looseing my breathe now overwhelming overworked,
Nutmeg in her coffee like I nutted in her nutshell nutty ok nuzzle the puzzle,
even got a muslim chick she bad from Iraq we choke on them mushrooms,
luxurious she had some luggage I threw out lush so bad almost lust,
ate from the knapsack down on my knee knife the knight the king,
juvenile was so jolly he joke on me and I junction him.

I 'Scream' Over The Fields Hope To Take Back The Life We Took From Them,
My Girlfriend is 'Bad' but a little 'Dangerous' but girl 'Remember the times',
She And I use to walk in the park and I told her I'll always be there,
now will you always be there baby in the morning and the night,
I use to be a 'smooth criminal' in a store buying everything that spent,
'Billie Jean' wasn't my daughter she was my cousin,
Given this world my poetry so 'how much more can I give',
So I can help 'heal the world' too so I can help 'change the world too',
and you me and we everyone can be happy again and not depress,
Putting words together in soup 'A B C' almost as easy as one two three,
been in here long 'working day and night'.

(Albert Carrasco)

He said he 'got to be there' in the morning,
When she wakes up to the world Me too,
That she was my momma because she's my favorite girl.
I was living 'off the wall' like a 'monster',
I was 'bad', I told 'billy jean' that kid she said was mines ain't my son.
She was searching for the wrong 'man in her mirror'.
Sorry my 'Liberian girl', aka 'dirty Diana'.
Why 'you wanna keep starting something'?
What we had was a one night 'thriller',
Your saying if it's not me 'Who is it' My reply.. Maybe your ex,

Never Wanted To Leave A Fire Blaze

A fire blaze people wondering why,
matches while being drunk,
tell my homeboys and homegirls,
that the plan was planed,
I couldn't stand not to tell her,
how I felt about her,
It was eating me up everyday,
so up In flames goes a trailer,
what If they knew would It make me danger,
drunk standing In hot fire,
he's like a ghost he's Tommy,
does It even matter,
never wanted to leave,
but I had to return home,
I had to act a play out fire,
so what you all know,
I love you woman,
now you know,
trailer gone up in smoke,
all because I couldn't stand,
not telling her anymore Oh Tommy.

One Night Mr Philips Forgot

I was there sitting in the classroom tomorrow come no soon,
looking in my textbook while staring across the room,
notice that my paper for this lesson is out of room,
wondering if birds fly to get out of sight,
one night Mr philips forgot our homework assignment,
then we talking about how hard the teacher has to work,
he said I have to do teacher conferences for an hour,
your safe inside your own soul,
then I wonder how people bring about history,
sightness is blindness to open your heart and soul,
can't stand not getting a homework assignment,
love homework so much it keeps me busy in a ever changing world,
when I'm scared to walk out my own house,
what people say if school wasn't taught today,
we hide away from the world while we destroy earth,
one night Mr philips Forgot the classroom seating,
by the names of all of you is how you are seating,
I think theres a magical ending one never expected,
only human so I'm learning in school how to be a better person,
hide me from the darkness that around me,
rise up america rise up for the future before it's too late,
if we all hold hands can we make this world a better place,
is our hearts so stone cold that we can't live happy again,
will there be another tomorrow,
cry out our name in history,
I know you seen a better life before,
we all in these times so reach your hand I'll be there,
one night Mr Philips forgot the names of the other teachers,
taking to the doctor for life care,
the doctor helped help him remember the classroom kids.

Over Heated

I was outside In my garden,
look at how much my tomatoes grown,
high weed's grown through the dirt unknown,
I decided to pick the weeds out,
so my tomatoes will not die,
as I lean over towards the ground,
I forgot that my back ounce gave me trouble,
so I thought on the double,
Maybe I need my heat pad,
now without thinking the sun,
was already ninety one,
so I put my heat pad on,
to stop my back from hurting,
but it started to burn,
I was over heated,
so I took my shirt off,
to clean the sweat off my forehead,
the sun has strong effect's,
thought I seen a image,
of a cow glazeing half away from me,
now everything I ever known or done,
I don't know really If I done them,
If my phone is off,
how does a message come through,
I don't have a single clue,
do you know? ,
I guess I'm just over heated,
like the title saids,
and if you see my woman,
tell her I still love love her always.

Phobias Of Plenty

I'm aging a little got some years on me,
Being alone it's no joke but I'm single and happy,
Man I got books stack around the house,
just to grow my poetry more,
My grand daddy had cancer devil gave it to him,
these clowns messing with my head after I smoke the weed,
I'm in all these confined spaces like a tight corner ain't enough,
Got alot of fans in alot of crowds looking for me,
on my bed lights off look how dark it is,
Ghost put these dead things images in my head,
run from house to house away from the heavy dogs,
I'll be driving real fast to get away from everybody,
scared because its a chance we all are dying,
I took the elevators to the tenth floor,
everything is always happening to me,
Failure is not a option in my life so I choose the high life,
me and my family is flying to new york city,
clean clean clean your hands clean them Germs well good,
Riding rollercoasters not worrying about the hight risk,
done been to every hospital with my mom,
me and my girlfriend had intimacy on are bed in our bedroom,
seen people with sugar problems use needles for their sugar problems,
oh my fans listen while I do a public speaking,
Rejected by a girl call it it rejection,
walking in the woods almost step on some snakes bake some cakes lol,
almost lost my social networking social situations,
In a old abandon house see spiders all around,
Strangers always coming looking for a small dang hand out,
making love while its thunderstorms out,
got so sick from being at the doctor I was vomiting,
These are phobias of plenty.

Pipeline Alaskan

Travel to Alaska It's so cold out here in the degree cold,
The Alyeska pipeline so dang long and big to work on,
On this arctic coast will all freeze and be lost dead in the morning,
there is 16 billion barrels of gas to run these machines,
will be out here blasting caps in the cold to keep people warm,
I love Canada it's so big we get lost trying to find our way around,
It's my challenge to try new things everyday what's your challenge? ,
Built this on new land like I was doing construction on this site,
My crew took breaks every hour because they knew the money was good,
I dug the land like I was doing some exploration for a Book Store,
we all was mining for gold and silver like there was a gold and silver rush,
Natural gas comes so natural like we struck gas all the time baby,
America ran out of oil one day then they ran to us oh no what a oil crisis,
Struck petroleum out here so I grab a stick put some paper on the end and lit it,
working on the pipeline it's taking all day hard work like they don't even know,
I'm in progress always in progress yeah I'm in progress,
I see some women in Prudhoe Bay,
Remote areas is close off because it's working areas what goes on in there?
yeah we got large reserves that separate the oil from the gas,
the roads that reach to the pipeline could use some construction,
we got stations out here so if you leave work early you get shot by a shotgun,
or my tankers come blow you up by my working splitting tankers son,
the tundra mountains blowing cold air out here so walking through there is a
problem,
A Valdez marine had to get our boat out the of the Ice with their marine boat,
then I will fly away on a terminal at an airport,
there finally the Pipeline Alaskan is finished.

Premission

premission this is the Introduction,
I'm so uncontested like this,
ain't even a contest,
I have not left anybody who like me,
I've just been resting,
to get beautiful sleep,
been away for a year,
and they over there,
chopping up Chinese sticks,
I should have decided,
to be a bum,
so the government can,
pay me and my mom,
instead of having a job,
or maybe I can grow up,
like my uncle sam,
take your tax money,
and play with Iran,
premission uncontested putting,
you to the mission,
watch the women go Inshane.

Receipts And Repair Orders

I bought this Island we gonna go floating in the ocean but I keep the receipt,
everytime I go to the mall keeping these receipts so I can show officials what I
bought,
maybe I call you maybe shiny new truck so I can add you to my receipt,
when I bought it I had to make repair orders because the transmission was
broke,
dang shame how people screw you up in a good deal,
then you have to buy and keep a receipt for a replacement Ride,
now the theme park ride broke down I had to place a repair order,
bought a ring to get married had the receipt so I can show her how much it cost,
we shopping mall shopping under the moon light under the glass roof top,
you a singer so I had to repair order your microphone,
it's so special what we make this night into,
all receipts and repair orders go inside my lock box to look at later,
then my swimming pool my homeboys piss in so I had to clean it,
so there is another bill that relocates a receipt,
bought a cat then a dog because a dog is mans best friend,
Receipts and repair orders that what you find in every corner of the house,
don't you want to buy till your money won't spent,
La La La Oh No No La La La Oh No No No,
she my queen so I keep all receipts incase she wants to return something,
no love never went miss.

Robotic Arm

Takeing You back to school arm made out of metal,
everybody talking noise like time is almost gone,
rock in middle of Texas like playing metal rock on stage,
Robotic arms is what the government making us out to be,
It's not made of God but of the devil,
tell me where to hide everybody almost evil with a side of hint,
I rock you with a guitar while takeing tar off a roof of a metal building,
I dance for you but you never dance for me down the yellow brick road,
Robotic arm then everything okay while I work with a metal arm remote,
standing here in the kitchen cooking noodles with a robotic arm,
Hiding fish in a net in the ocean so fisherman can't have my cut,
nobody running to money when their ain't no cut,
almost like eating fruit loops with milk to get strong again,
I'm a robotic arm waiting dude because I know everything done by Robots,
but almighty God never intended it that way,
BBQ Store I eat a BBQ Sandwhich with my robotic arm,
took time away from my own work place to play with your mind,
like we in a movie studio makeing a hit poetry movie,
Took a break for a minute everybodys like will he return,
If you preaching be about God then,
Robotic arm it's what I'm use to using.

Rub Me Down Like Mummylocks

She Rub Me down like mummylocks,
so she pulled on my tommytucks,
looking for the doorlocks to lock us in,
talking so sweet it's like time for bedtime,
her mine is my pharaoh because she a queen,
was gone for a minute to spit a language of a new play,
while they making fun of that model,
I dated that model,
all this talk got me drunk on a saturday night,
she was here before,
before I let her go my own dang fault,
rub me down like mummylocks and then say what's up,
are we talking or are we looseing ourselves,
like a pharaoh a queen then she laying in a white dress,
on her back in bed she look so good,
wait don't have a kid play it smart,
I have the holy ghost I believe in god he sent me her,
this was old singing in the opera house,
mummylocks it's like having tommytuck's,
nappyboy the click who we ride with why you hateing it,
She rub me down like mummylocks.

Ruler Rumble Rumba

Trouble coming my way like I'm looseing my way,
money low cause I feel like I spent more then I took in,
big city but where are the big star's I'm a lie,
catching loose ends diging deep around me in the ground,
I lost my way trying to be not me but somebody else,
Ruler rumble rumba like I'm a ruler who rumble rumba's,
they don't really care about me wheather I'm here or not,
they destroy the planet they would destroy me,
it's like this place is too big for the both of us,
one time I was good at this poetry but I lost that talent as well,
now they telling me quit give it all up now,
never would I play in that second best game,
low on money but I still see dollar signs,
someone best to pay all the bill's,
Depression falls on a two step second bsic,
this is insane give all my money all away,
now I needed love but these days it's hard to find,
my friend's either dieing or moving what the heck,
what the mess wrong with this world,
I was a ruler by my poetry for a minute then I lost,
Rumble around at party's until my night was finished,
Rumba was a game like we play for a sport,
I can still wave around my magic sword to finish a word,
how you ever been in my spot where things are so twisted,
welcome back to the circus of this life,
government tracks me verizon phone.

See These Demons Walking By Me (Short Poem)

They trying to hurt my soul,

It's hard to hide from them this is a devils world,
So god I pray out to you because demons are strong,

Seen In The City

Woke Up In the Apartments in the middle of the night,
thought I heard something got ready for a fight,
Bike Police told me it wasn't nothing but a nudge I told him fudge,
Had to go to work the next day so I rode over the bridge that had Ice on it,
Decided to take the bus but loss the ticket to all the crowd,
Now the city lights shined down my face made me so blined couldn't see nothing,

Visit the coffee shops needed something to keep me up past bed time,
Doorman to my hotel told me I wasn't geting in because I got rain on,
the next day I went to the farmers market pick up some food,
My dog leaked on the fire hydrant and the police ticket me,
Walk down the street look down at the manhole covers and realize my life is
made that way,
This is the monument to tell my wife one day,
These museums took my old great poetry but left my horrible new poetry alone,
She was a panhandler took everything I was worth left me worthless,
Great left all my change in the great wall of a parking meter,
Went to restaurants paid a high price for yours and mine dinner,
Sidewalk is crack I leap and fell rebroke my leg and took a spell,
I looked up at the pretty skyline wonder if the sky was falling,
Skyscraper was leaning over my way after the earthquake came through,
Walk to the stadium it was to full they walk all over me,
I seen the statue the street lamp and a street performer.

She Was Torn Between Two Men Ft. Infinite The Poet

She Walks on Green open farm land,
looking at new wind turbines,
her heart stops because her phone rings,
her boyfriend says we got to break up,
she crying tears filling the river up,
she wants a new start but she still in love,
her new boyfriend breaking the family up,
the ex which is me wants to fight,
they can't control themselves they destroying the planet,
we can cry but it don't fix the problem.

(Albert Carrasco)

She was mine,
then became his,
now I want her back again,
she fell in love as I spiraled into lust,
I yearned for her touched,
Oo how I miss her so much,
Ring ring I call after his call,
I hear the one I love bawl as if she was a baby laying in fetal on the floor,
he's leaving he doesn't want her anymore,
they argued and constantly was cursing,
many nights of pushing and shoving,
let me back in I need your loving.

(Tommy Laster)

As I wake up her body reminding of a solar power energy,
she has so much energy she never quits,
it's so emotional how her new boyfriend getting in the way like a headache,
now taking pain pills to clear my head,
me and her making love under the stairs,
that make up call back crap,
we on a tractor like soul survivor,
she let me hit her cookie cause snookie is christmas season,
wind turbines her body spins,
everybody welcome to 2013 poetry the comeback of poetry kings.

(Albert Carrasco)

she let me in,
In the beginning she was torn between two men,
now its all about me again,
all he did was bring problems,

he sees she flocked to me,
so he calls and harass,
baby baby please,
kissing his butt,
I never pushed or shoved her,
I just didn't know how to love her,
You know what? ,
I practiced without having her,
she's mines now and forever,
so it's time to back up my brother.

I Paid for her hairdo hair spray she was kind of hairy girl get shave,
Identify yourself then we idol like the american idol if your a impostor make u
impoverished,
lets play jeopardy I'll jerk of to your jockey girl jabber my joint with that
jackhammer,
kerosene cleans away the smell of gas after you karate my body the key and
kiss,
ladybug she ladylike laid on the bed of sucess I took a laxative she lavender,
magnitude she took a mammogram to check for cancer malnutrition,
Is it necessary to hurt me like you do your nephew came through,
Single And I'm Crying Out.

Sweet Love Like Honey Bunch Of Oaks

I Eat her conversation like a cereal out of a breakfast box,
so I can understand pure english from her language to mine,
I think I'm hard but she knows the difference,
she's the text book in the school room with the knowledge,
Different tough boy looking for college,
now girl where's the key to your dorm room,
we ain't talking about making love we talking about studying,
I put a box of honey bunch of oaks of the dorm room kitchen table,
Drink some of this wine while we study history of flying,
hey sweet love like honey bunch of oaks what a lovely day,
we can talk about peace out in the open on a beach while we sun tan,
what you think about the keys to the past being open back up,
no way I'm leaveing we coversation now real good,
Dorm doors lock up tight we talking under the covers,
midnight love we ain't talking about lovers,
I put your picture on the wall today,
It's been a million years since I seen your face,
so I turn real sharply smile blow a kiss and say girl I missed you,
sweet love like honey bunch of oaks.

They Praying To Human Beings Instead Of Praying To God

They Praying to human being's instead of praying to God,
Missing Items That Was earn or giving,
My prayers and love go to Newtown Connecticut victims,
weird to me how both horrible events is name sandy
enough that my girlfriend mandy left me,
Sandy hook Elementary school we still praying for you,
Wish I could bring back life in every horrible event but I'm not God,
It's so sad and everyone in every nation crying tears,
why won't the devil and his demons let us be alone with God? ,
Why do they hate God so much what did he do to you? ,
This is hard to bare messing up our lives like we don't care,
And its gonna pay us back like riding on a yak,
Do you miss the pictures are they destruction to you? ,
Like we knocking down a building because we ain't about gun control,
dang Congress what is wrong with you?
they want us all to die by no climate control and no Gun control,
we destroying ourselves and no one out their to care,
you let the devil come in here and now we all dieing it's sadness,
madness controls everyone of us now what are we doing,
no poetry game this is realness I'm on no media side with this,
you all missing us and we are angels looking down,
on lost souls on a lost soul land now,
bottle water try to wash away tears in the midnight,
cops never around eating out while people give guns out,
where was you when michael jackson stood by you but you all kill him too,
now this world so unglued nobody working on it but the president,
congress where are you did you step out the blue,
they talking about christmas break when they havn't clean the slack,
we all bringing evil back while we break our backs,
To destroy the world this ain't our human nature,
we all destroying everything and now we geting where we don't even care,
they backstabing us just to see if we could still stand,
and its all in human nature mankind man.

Asolar context they trying to write on me in the newspapers,
Giving Me bacteria from the ink that they telling lies on me,

idiosyncrasy is my make up image skin cancer newspaper sickness,
they put me back in the tabloid like heck ain't freeze over,
jealousy kill the dog that was all so noseay,
they put me in a kennel because I had a kidney bean,
that needed to b farted out ten times over and over,
they trying to label my lackluster because I wouldn't,
Perform on their label,
The magazine was a maggots after me and my poetry,
I was Naked Nagging And Walking again,
It's obnoxious the obscurity of the occult,
Been padlock inside this cage they won't let my poetry come out,
quck like a duck to get in a queue line.

Through People I Have Power

As big as my power is couldn't do it without fans,
Tv's everywhere none of them tell me who I am,
I stand accross this lonely floor,
dreaming of this new start,
through people I have power,
thank you thank you to the fans,
poetry fans are the greatest,
this is my life let's all get it,
I can kiss these awards faster then you,
It's lonely out here It's my fault,
these people knew the power they gave me,
when it all falls they know this is not Tommy,
given power is also power taken,
this two sided sword cuts deep into skin,
people watch you fall when then grant you all,
power from the light company will shock you,
how do you go about being powerless? ,
through people I have power,
out sourceing life for fun instead of trying,
so I'm stuck here with no visits.

Triple Meat Pizza

She likes that triple meat pizza,
her mind tells her to eat all day,
that sausage hamburger and ham,
order line says order it your way,
and she can't get enough no,
one day she gonna be overweight,
take my mind apply it to hers,
her relationship ain't for love,
we only together because she wants pizza,
eating because its all eatable,
can't take it away she wants to fight me,
she loves food food plus more food,
I ask her what and who she loves,
her answer is triple meat ham and extra cheese,
with a sprinkle of blue cheese,
what about American cheese she hates that stuff,
her mouth is her enjoyment,
while she sticks a piece of pizza in,
can I come take a spin,
touch my food I'll cut you she said,
that's why you have sugar problems.

Walk Away And Pass Me By

God Said's Don't you do it how why do you walk away and pass me by?
I the God in heaven created the world for all of you,
how you destroy it with pollution and cut forest down,
this man made destruction you created tearing the world I created apart,
where are all your minds the cursing my name I havn't even return yet,
you putting the bible down just to spin and burn the town,
havn't even pray for forgiveness yet so when does the madness quit,
and it's like time hasn't stop to give you all what you want,
the crying and the pain of jesus taking his life for the slain,
you would put your body up to be tested but uncontested to his on meekness,
the truth would hurt you so you couldn't handle the truth,
years gonna get harder devil trying to grab us at our necks,
the devil trying to test yall because some of yalls knowledge ain't with jesus,
some created a monster when God and jesus given you everything,
some take what god and jesus given them and take it to vain,
you hurt yourself not to believe in the word of God like a spake of dust,
when all he gave you was his trust he deserves better but yet,
walk away and pass me by that's what you always do said's God not me.

Want To Get Her

I want to just chill,
be me and no one else,
you see only what,
you allow yourself to see in me,
I want your mind wondering,
why i'm taking it easy,
letting you get the first words in,
I'm not a book but a novel,
once you read the pages,
then you decide to follow,
forgive me for things I said,
also for the things left unsaid,
just trying to break bread,
want to get her,
but I want no fussing,
between me & her,
like a cruise ship without a missile,
ready to jump back on it phizzle,
she is strong like a lily pad,
her flower springs daily,
know that dad,
now she calls herself queen,
I call her queen bee,
hear that story about,
birds & the bees,
she loves a environment,
with bigger better words,
so I can bring romance towards her,
hold my car door,
for me my strong king,
that she once said to me,
A flower without a bloom,
Is no flower at all,
beautiful picture on the wall,
will she talk,
how will she listen,
I help her straighten the kitchen,
light bulb on,
just got to think,

if I was in her shoes,
how would I feel,
do I have the skills,
to meet her needs,
down on my knees,
marry me please,
zig zik poetry,
doing poems for her again,
don't come in my zone,
I only came to win,
newspaper alert,
playing with my woman,
tell that to the people please.

We Are The Key

we are the key,
in what we believe,
will never fall,
for god holds,
us all,
only we,
can open a,
bigger door,
and stand,
on the other side,
where freedom,
is the heart,
we over turn you,
like turning a,
door knob,
to enter you,
must pray and,
believe in god,
for we will not,
cheat-kill-steal or lie.

We Should Be Millionaires By Now

Older poetry artist to the newer poetry artist,
we cutting poor meat on the grill while we try to teach you,
I won more awards then money look like a fool on crack,
the business they be funny look for a new hook every time,
we should be millionaires by now shopping to get what we want,
I shouldn't have to want any more but wait it was me that put this back into
motion,
single railroad track they hide their money from me,
they new poetry artist and the business taking notice,
every step is jealous of the outcome to what become me,
I wonder if this poetry game is even worth it even more,
they missing what they can't have is it worth the cry's,

Who You Think You Is

who you think you is,
fool with a big crown look,
tequila on the ice,
we come steal your queen man,
she goes to vocational school,
usual I'm warm-hearted,
but walk-the-plank man,
teach you never touch my mother again,
I'll be playing the xylophone,
yester-day was yester-eveing,
you have a problem disbelieving,
fool who you think you is,
I make you walk the street,
let you smell the vapor,
from her woman part,
you gonna need,
a umbrella to go under that waterfall,
best upholstery in the house,
say white-house mouse,
dude ugly-duckling tycoon,
stick your mind in twilight,
let vampires suck you dry,
have you running from your friends,
while you crying boo-hoo,
give me a tribute,
Its splendid you came visit,
royalty bow to me eat spinach,
who you think you Is.

Why Stop Now

I wanted to trash all my work & quit,
walking through every dark halls,
looking at all my paper work,
empire state building stack,
this has been a long ride,
life ha whatever you call it,
ain't poetry like poetry king,
laying next to the windows,
sweating hot in summer,
hiding because they google me,
I love my famous poetry face,
woman be home in the morning,
like its 5'Oclock & she working,
oh no why stop now,
best is in you as it is in me,
nightmares at trying to be the best,
haunting me like its halloween,
girlfriend calling me on a broke phone,
government issued & they still owe me,
big world no railroads must turn right.

Why You

I don't know why,
Its you people are picking,
to criticize or hurt you,
you are just trying to live,
the stress is getting to you,
I know,
your pain and heart ache,
I feel,
because I've been there,
I care for you if others don't,
you are my life-heart and soul.

Yankee

Yankee Doodle Dandee went to town riding on a pony,
I Hit a baseball with a bat like a yankee,
drink a beer with a yankee,
dress like a yankee,
talk like a yankee,
even live like a yankee,
go to jail like a yankee,
do shopping with a yankee,
bathe and brush my teeth like a yankee,
bowl with thousands of yankees,
cut my grass like a yankee,
read in bed like a yankee,
Finish high school with yankees,
stuck a feather in my hat and call it mac and cheese,
took my dog to the vet like a yankee,
hell even slept like a yankee.

You Have Attempted To

you have attempted to,
cloud my mind like,
a wonderful garden of green,
where could you be? ,
snapping a camera window,
taking a picture to last,
but it does nothing because,
I can't touch you to see how,
it feels to you,
you have attempted to,
sex with you,
play with your toes,
under the hot heat sun,
rub our backs tonight,
Kiss-hug-& tell,
spin the bottle,
til that dress comes off,
hey boy she said quit,
got so hot today,
the heat from the sun,
warming the room through,
the open windows we had,
open last night too,
keep down you yelling my name,
she looks like a queen,
Inside her country church dress,
no he said she said here,
didn't listen in school,
teacher the wife type,
typewriter write a story tonight,
abc~one~two~Three,
oh me how can it be? ,
you have attempted to,
cause me confusing through heartache,
I can't believe,
talking to you one minute,
then boom all dreams come true,
Hold on Tommy keep your head up FizTzle,
Hey homies I know how you feel,

doing music or poetry,
keeps me stress free.

You It's Not

laying next to me listening to my radio,
she thinks shes the one,
I'm waiting on my woman to get home,
you its not stop crying girl,
one day you will find,
a better man then me,
Its time to see
my government chick,
who spends my money,
like the government does,
no change in my game,
you know they all look for money,
now hold up,
I told you on the phone,
that my woman was coming,
you came anyway not hiding,
nothing can stop me,
from talking to her,
woman you its not,
no its not,
come and screw me.

You Must Be A Lame

women you act high class,
richer then a speed past,
can't even say hey,
when you past by,
now you look like,
a stuck up fool,
look what school taught you,
to act like you better girl,
with all your cheddar girl,
I'm here to tell you,
go get a life,
you got on my bad side,
with all that high class,
think you better then,
everybody else crap,
girl you need some,
new lessons stop protesting,
you call us men lames,
because how we do to you,
look at how you act,
women you so high class,
that you think you have,
more empowerment then god,
that's your butt,
because it will be grass,
so I guess,
you must be a lame,
as you call me lame.

You Say It's Easy Being Me

I'm stuck in a world that's easy being cold,
timeless pit that's always trying to run after Gold,
put here to entertain stuck off the window paint,
happy to be of service to anyone who calls my name,
It's like I'm going nowhere but stuck in a hole full of mud,
call my supporters to help me but all they see is themselves,
hit by the lightning so hard forgot about the thunderstorm,
these people they waiting on me to give the next message,
I always want to be that house blessing,
you say it's easy being me more easy to climb a tree,
I know where the branches of love are,
high as a fan blade people mad at you like a heck blaze,
now I done did all I thought I could do in this world,
but telling the truth Batman and Robin never care about the world,
been studying the heat wave like man it's hot outside,
you say it's easy being me then why ain't I'm free,
but that's ok because I got my style from my own,
if I'm missing any beats they tell me how to be complete,
this was so easy I could have grab a snack,
a snack pack and a go getting act.

Your Kindness My Lovingness

Your kindness is felt,
through my heart,
my lovingness is not as strong,
as your smile,
you can break me down,
by telling me,
how you really feel,
but I'm always around,
when you need someone,
you can depend,
on me fighting for you,
because I'm trying to be with you,
your kindness my lovingness put together.

Zoo Environment Poem

we cage them so people look in,
give lion meat so cannibal,
fresh fish ship from ocean,
to give to all kind of bears,
lion tigers bears oh my,
lights paid by state,
animals suppose to be free god's idea,
here in america we use them for meat,
torture them so shameful,
zebra with stripes warn of hurt,
locked into the cage,
what if that was us,
couldn't believe it all,
lions can't talk about wrongdoing,
bears can't fish out of ocean,
environment runs off animals revolution,
you can pull the cars pollution,
throw it away,
think about the trees & animals,
welcome to the tune of the zoo.
