Dandelion Dan Sang Batu 2

Aku meninggalkan si batu,
yang walaupun, menurutku, bukan sang "cinta"
setidaknya telah mengajarku
bagaimana tetap teguh.

I Want To Ask God, "why? "

So cloudy and blue
My soul is there
Hanging somewhere
So abstract, out of my mind
can't understand 'till so far why everything seems getting darker and darker

I see nothing
no light nor shadow along my path
Close my eyes just a minute
lookin' for somethin'

Just now remember you
standing there with lots of pain
no more hand or tears
Want you to be brave
for life is not forever
although it's only counting the days
You know there is somethin',
somethin' that sounds real

Heaven is for us,
a homy home (you should believe it!) for our eternal soul.

Kupu-Kupu Perak Bersayap Emas 3

Kepakannya berangsur
bertambah cepat
seiring tubuhnya yang
mulai melayang di udara.

Hingga dilihatnya si pohon
menjadi sebuah noktah
hitam yang lama-kelamaan
hilang pupus.

Wednesday Memoar

There we are
telling each other
our secrets of life
all about love and sadness
happiness and dream
not enough one night
since everything is not yet everything
