# Another Love Poem

My life is nothing but pain,  
A life of sorrow. A rose in the rain.  
I've lost all i ever had,  
But when I'm with you my life is'nt that bad.  
I still have something to fight for,  
So i will fight until i can no more.  
I will not stop 'til I'm the one you love,  
I'll get back up when push comes to shove.  
Because for now thats all I can do.  
I will proove my love to you!

# Ashes To Ashes (For Ashleigh)

Ashes to ashes  
Dust to dust  
Slashes for slashes  
Lust for lust

Beauty in the eyes  
Of her beholder  
But no comfort  
No arms that hold her

No one to help  
Her through all this  
But all she wants,  
Is one last kiss

One last kiss  
She'll never forget  
Before she goes  
One kiss to never regret

For it'll be her last  
Her last moment of love  
before she gives up  
And ascends up above

Never to be seen again  
But never to be forgot  
But just know before you go  
To me you mean alot

And I'll miss you  
I'll miss you so much  
I'll cry, I'll cut, I'll bleed  
etc. and such

And I'll never be  
What I am now again  
But I'll see you again  
Up there. In heaven

# Because I Cared

You love me too much  
So you break my heart  
I loved you so much  
Well I'm falling apart

'Cause now I'm alone again  
And just as upset  
And knowing me  
I'll do something I'll regret

And I'll never suffer again  
It almost seems worth it  
But the sadness it'll bring,  
My friends don't deserve it

But once I am alone  
Sitting in my dark room  
I'll put me to sleep  
Lying in my dark tomb

'Cause I love you too much  
To live on without you there  
Now I'm the one leaving  
Just because I care

Vini Carberry

# Bolt Locked Door

The tears of regret in your eyes  
The murmur of truth in your lies  
The sadness in your face  
It's evil disgusting taste  
The foul stench of death  
I die because nothing is left  
There was nothing left for me  
No more reason for me to be  
So I left only a blood stained floor  
Behind a bolt locked door

# For My Last Friend

I sit here, knife in hand,  
Due to the pain I don't understand.  
I run it over my bare skin,  
I'm not going to heaven, I'll pay for this sin,  
Im going to end all my pain,  
My entire life now in vain,  
It will hurt, I will bleed,  
Now true freedom be my only need,  
I will end all my dreams, every last one,  
Knowing my destiny will never come,  
Don't cry when i'm gone,  
For in You, My life lives on.

# For My Only

She Was All I Had!  
She Is The One I Adore!  
She Is All I Want!  
She Is Who I Live For!

She Is All I Need!  
She Is My World!  
She Was Everything To Me!  
My Beautiful, Gorgeous Girl!

She Is My Only Love!  
And I Hope She Loved Me Too!  
She Is Who I Wrote This For!  
Babe, I'm In Love With You!

Now I Sit Alone!  
As I Cry A Single Tear!  
And With My Final Wish!  
I Wish You Were Still Here!

## For S.O.S

Why didn't I tell her how I felt?  
If I'd just told her,  
If I had let her know,  
Maybe she would have realized i was there.  
if only i wasn't scared  
To show her how much i cared  
Now I sit in tears,  
A victim of my fears,  
But now I will let you know,  
It's just 3 words so here I go.  
I Love You!

# Forgive Me Father For I Have Sinned

I Have Caused The People I Love Pain  
I Have Taken The Lord's Name In Vain  
I Have Swore  
I've Broken His Laws  
I've Brought Death To This Place  
Done With A Smile Upon My Face  
I've Been Happy When Others Were Sad  
My Actions Have Done More Than Make People Mad  
I've Been Given More Than I Have Gave  
I've Ruined Lives That I Could Save  
I Should Be Thankful For All I've Got  
But Yet Despite It All Im Not  
My Souls Been Heavy For Far Too Long  
Why Is Everything I Do Always Wrong  
Why Can't I Do Just One Thing Right  
My Eyes Are Open But I've Lost My Sight  
I Can No Longer See  
The Right Or Wrong Path Ahead Of Me  
But I Know That Soon This Will All End  
So I Must Make My Ammend  
Please Forgive Me Father For I Have Sinned

# I Miss You

We were so close  
But now we're estranged  
We grew apart  
You grew up, I never changed

You found some one else  
So now my best friend is myself  
You forgot me completely  
Like a toy left on it's shelf

Left alone to drown in sadness  
With nothing but my memories  
The days of us together  
Feel like some one else's dreams

You don't Know how much I miss you  
I need you, your the reason I live  
To be with you just once more  
Is the greatest gift anyone could give

And it's the only thing I want  
Cause your the only thing I need  
I'll do anything to get you back  
So hurt me, stab me, make me bleed!

Vini Carberry

# I'D Die For You

When I said I'd die for you  
I mean there's nothing I won't do  
I'm here to help when you're in need  
So if need be then make me bleed  
If thats what it will take  
Then thats the sacrafice I will make  
Cause when I said I'd die for you  
My heart was pure, My words were true  
And I've mean't every word I ever said  
And I'll keep telling you 'til i rest my head  
But still there is nothing I can do  
To repay all that I owe to you

Vini Carberry

# Is It Mean'T To Be This Hard?

I love her so much  
That it hurts me inside  
And I couldn't tell her enough  
No matter how hard I tried

It hurts me to know  
I cant be with you  
To know that we can't be together  
No matter what we do

We can't hold hands  
Hold eachother, not even kiss  
I know love isn't easy  
But is it ment to be as hard as this?

Vini Carberry

# Justice Dies

Tears flood as blood falls  
Tears rain as fate calls  
Life ends, death has come  
The victim of their morbid game  
People cry as the bell chimes  
But no one pays for the crimes  
They get away with murder  
Justice dies with a screaming murmur

Vini Carberry

# Let Me Help

Why'd you do it?  
Why'd you go through it?  
I could've helped  
But you kept to yourself  
My shoulders here only for you  
No matter what it is, i'll help you through  
'Cause when ever i see you crying  
It makes me feel like dying  
And all i want is to help  
So tell me about the pain you've felt  
And we'll get through it together  
'Cause no matter what, I'll love you forever

# Life Doesn'T Last Forever

Life is precious. It is worth living.  
It's not rubbish. It's not worth wasting.  
Life is beautiful. it is worth loving.  
It's not ugly. It's not worth hating  
Life is memorable so it's worth remembering.  
It's not boring. It's not worth forgetting.  
Life has a meaning that is worth fighting for.  
So don't treat life as though it's war.  
So forgive your enemy. Hug your best friend.  
Life doesn't last for ever. Eventually it will end.

Vini Carberry

# My Final Goodbye

I Cry As My Heart Twists  
And Blood Rains From My Wrists.  
Soon It'll Be Over. Soon I Will Be Dead.  
And When I Am, Have No Regret  
Remember The Memories We Both Share  
And Let My Words Show You I Care

Please Remember Our Moment In Time.  
I'm A Memory In Your Life As You Are In Mine  
And I Hope You Never Forget.  
But Now Its Time For Our Sun To Set.  
So As I Go. As I Leave You Now.  
As My Curtain Closes. As I Take My Bow.

I Write A Note For You To Find.  
'I'm Sorry That I Left You Behind  
But Know Im Still Here For You  
I'll Be Watching Everything You Do.  
I'll Be Your Angel, Like You Were Mine  
I'll Keep You Safe. Don't Worry I'll Be Fine.  
It Didn't Hurt. I Felt No Pain.  
I'll Wait Right Here 'til We're Together Again.  
This Is Where My Memory Stays.  
I Love You Forever And Always.'

Vini Carberry

# My Last Tomorrow

I know life can be hard  
And love can break a heart  
But peace will be found  
In eternal solemn sound  
In quiet and silence  
Through my angels guidance  
They lead my way  
To a fateful day,  
Of pain and sorrow,  
To my last tomorrow.

Vini Carberry

# No One

No one can hurt me more than myself  
That's how it is when you wish to die  
The cuts on my body show my weakness  
The name in this skin shows my pain  
My words show my only wish  
And my tears show the last straw  
'Cause after all this my body will take no more  
So this is it. This is how I disappear  
With a cut from the blade  
A tear of the skin  
A stream of blood  
As my body hits the floor  
My last breathe  
and the words  
'I'll always love her'

Vini Carberry

# Please, Just Leave Me Alone

Is this love just a mistake?  
Are these feelings I have fake?  
Was this all just one big lie?  
Am I just another guy?

Did you feel the same way?  
Or did u just say it to keep me okay?  
Well it didn't work.  
Cause now I'm hurt.

And it's all thanks to you.  
And I don't know what to do.  
Now you have someone new.  
Someone who says they care about you.

But do they care as much as me?  
Babe can't you see.  
They dont care as much as i do.  
They love your body, not you.

But now it's over and your gone.  
And I'm left to move on.  
Now all I am is another regret.  
I promise you I will never forget.

I owe you everything I own.  
So take it to repay the love you've shown.  
So just take it and leave me alone.  
Just leave me to die on my own.

Vini Carberry

# Say Goodbye Too Your Life

How could you do this to me?  
And how the hell didn't I see?  
You were just playing this game  
But guess what bitch. your life won't be the same.  
By tomorrow everyone will know you  
And they'll all know what you do.

They'll all know how you use guys  
How u rip out hearts infront of their eyes  
How u stomp them flat  
How many guys will you get after that?  
And the ones that you do  
They'll just be using you!

# The End Comes Tonight

Darkness engulfs the light  
The world ends tonight  
So as all that lived dies  
I close my teary eyes  
And all hope disappears  
As we face our darkest fears

We tried so hard to defend it  
But Soon fate will end it  
And as the warning bell sounds  
Our knees hit the ground  
We close our teary eyes  
As all we loved dies

We say goodbye to our lives  
This time no one survives  
We wait for death to come  
Knowing nothing could be done  
We close our teary eyes  
And wait as the world dies

# The Final One. Goodbye My Love

It's my first birthday without you here  
I really don't want to face this year  
You made me me and kept me sane  
But now you're gone and already I've changed

I drink now and I smoke too  
I never smile and I always feel blue  
I'm always sad and I just want to die  
I still don't understand why we had to say goodbye

It's seemed like forever since the day you died  
Though only months have left us behind  
I've changed so much, I wonder if you have too  
Are you still the same girl who said 'I love you'

Or are you as heartless and soulless as me?  
Do you dream of your death, Do you wish to bleed?  
Whether it's made me cry, whether it's made me sad  
Those nine months with you were the best I ever had

I don't want to live without your smiling face  
I don't want to think about the last face you made  
I just want to forget it all and try and smile  
But it's too hard to do and it's just not my style

I want to laugh and find someone new to love  
But I don't think I can when you tore my heart in half  
'Cause you still have the other piece  
It's not your's anymore, I can't love the deceased

We can't be together anymore, We have to face that fact  
So I'm writing this to ask for that piece back  
Please forgive me for wanting to move on  
But I just want to be happy just once more

I want to smile, I want to laugh, I don't want to cry  
I want to be happy, have someone new in my life  
So this is it, This is my exstange my love  
Take this instead of that worthless broken heart

# 'Til Death Do Us Part'

I love you more with every breathe I take  
And I'll cherish every memory we make  
And with every moment that passes by  
I pray your mine until I die!  
I'm yours in everyway, every part  
So take my hand, heal my heart  
I sware I'll love you 'til death do us part'  
Cause babe, this is just the start.

And the finish is no where in sight  
So when I hold you, I'll hold you tight  
And I promise to never let you go  
But incase I'm blind I just want you to know  
That I'm yours in everyway, every part  
So take my hand, heal my heart  
And help me honour 'til death do us part'  
There will be no end, only this start.

# To Be So Sad, But Yet So In Love

Why is this world so cruel?  
Why is this world so mean?  
Why can't they all understand  
I'm only the victim of shit they've never seen.

Of shit they've never been through  
Of words of violence and hatred  
I'm just their pitiful creation  
Their biggest mistake. Their truest regret.

But in a world ruled by the stupid  
No one can ever be happy enough.  
For none of them know what it's like  
To be so sad but yet so in love

To be happy to bleed a bit.  
I found my happiness through my blade  
And through my scars  
Her love will forever stay

She'll always be with me.  
She will never let me go  
She will only hold me tighter  
With an iron grip of my throat

As slowly I disappear  
As she chokes me of this life  
And finally, my golden key, to my eternity  
My golden key is just a rusted knife

' Take the blade and end the war  
Time to end what you live for  
I leave only a bloodstain on the floor  
A dead body and one boltlocked door '

Vini Carberry

# Warning Of Romance (& Trouble)

I can't believe that you're gone  
That you've died and passed on  
That you lay there dead  
Your clothes stained blood red

Already the world is a darker place  
No longer blessed by your happy face  
And everyone wonders 'Why'd you do it? '  
What was so bad you couldn't get through it?

Who hurt you? Who's fault is this?  
Who denied your soulmate his destined kiss?  
Who can we blame? What do we do?  
Please tell us their name. Who is it that hurt you?

But no one will ever know the truth  
That you hurt him, not he hurt you.  
That he went first. So you repayed the debt.  
And when you died, you died without regret.

Now you and him are together once more  
He was there waiting at heaven's door  
Now embrace His lips, hold his hand  
You always deserved a happy end

Vini Carberry

# Whats The Point?

Whats the point when there's nothing left  
When all you wanted is already gone  
And all that you have left in life  
Are lost hopes and dreams to dwell on

When pain and sorrow are your best friends  
And darkness is the only life you know  
As your life gets more and more meaningless  
That knife feels like your way home

You reach for it as memories come back  
All your bad choices, all the mistakes  
Tears go down your cheek and hit the floor  
And finally it's too much to take

You've had enough, you can take no more  
You break down, You fall to your knees  
You scream out hoping to be heard  
But no one hears your mournful pleas

You make a silent promise for no one to hear  
That this is it, here is where you die  
Your world stops and everything goes quiet  
And with one slow cut you say goodbye

Vini Carberry

# Why?

Why do you want to break my heart?  
Why do you cause me such pain  
When all I give you is all I have  
And I do so with nothing to gain

Loving you hurts me so much  
But I still try to make u smile  
I try to make u happy  
Even if its only for a while

And you still do it to me  
You still break my heart  
And now it feels like  
That was your goal from the start

I Love You and I tell you that  
I tell you it everyday  
And when I do 'I Love You Too'  
Are the only words you dont say

You used to tell me it all the time  
But that was then, this is now  
I want to keep saying it  
I just dont know how.

Vini Carberry

# Without Saying Goodbye

I lie staring  
The bright lights glaring  
A room filled with comotion  
Faces graved by emotion  
Blinded by the brightest light  
One last whisper, I say goodnight  
And all around me, my family cry  
Cause they lost some one special without saying goodbye

Vini Carberry

# You Look At Me, I Look At You.

You look at me, I look at you.  
We stare like we always do  
But it's not like it use to be  
I look at you, You look at me.  
Somethings different, it feels strange  
We loved eachother but feelings change  
All Love is gone. Only hate remains  
Two hearts broken by a deadly game  
Now you turn and walk away  
I whisper for you to stay  
But you keep on going  
Im yelling, but the distance keeps growing  
Now I hit my knees  
And I sware you can hear my pleas  
But you get faster, you start to run  
Then I realise. You, Me, Us, It's done.  
And it's never going to be the same  
Our hearts destroyed by a deadly game
